

Learn More About The... Massachusetts Grid Modernization Advisory Council (GMAC)

The Grid Modernization Advisory Council (GMAC) is reviewing electric-sector modernization plans from our utilities and we want to hear from you. These plans cover the utilities' investments in our electric grid, the future of reliability, a forecast of our future power needs, and strategies to support renewable energy sources, electric vehicles, and electrified buildings.

Why the Grid Matters to You

- The grid is vital for Massachusetts' clean energy goals.
- Renewable growth and electrification rely on a strong grid.
- These plans guide decarbonization and ratepayer impact minimization.

On Our Website

We want to hear from you! Members of the public are invited to deliver 3-minute comments on any topics of interest related to the GMAC during GMAC public listening sessions.

Please message MA-GMAC@mass.gov at least 24 hours in advance of the listening session you wish to comment during with your name and affiliation. Once everyone who has pre-registered has provided comment, others may speak, as time allows.

Written comments may be emailed at any time.
