

AGRICULTURAL PRESERVATION RESTRICTION (APR)

TRAINING, GRANTS & FUNDING

Training

MDAR offers training for beginning and experienced farmers in Massachusetts. Two current courses include:

- **Exploring the Small Farm Dream** – a course for those thinking about or in the planning stages of starting their own farm to generate income
- **Growing Your Farm Business** – a planning course to help established farmers develop a business plan and financial projections for their farm business

More information is available at www.mass.gov/service-details/agricultural-business-training-program-abtp.

Technical Assistance

Technical assistance is available to all farms including APR farms. Contact the appropriate staff listed for assistance.

Funding

All MDAR grants and funding programs require an application and are subject to available funding. The asterisk (*) notes two grants that are only available for APR farms. All other funding programs are available to APR and non-APR farms except the Farm Viability Enhancement Program**. Find complete descriptions and updates at www.mass.gov/apr at "Agricultural Grants and Financial Assistance".

Farm Viability Enhancement Program (FVEP)**

This program provides business planning and technical assistance to help established farms identify strategies to increase farm viability such as: new or expanded enterprises, increased productivity, marketing, and or environmental sustainability. Participants selected to participate in the program may be offered grant funds in return for signing an agricultural covenant on the farm property to keep it in agricultural use for a 5- or 10-year term. Eligible uses of funds are: capital projects on the farm such as constructing barns, farm stands or agricultural buildings, modernizing equipment, or improving food processing capacity.

The FVEP can be a stepping stone to the APR program. It includes a temporary restriction that requires farming on the land. The FVEP is also useful for farms that do not meet APR criteria - due to soil type, farm size and other requirements - but would benefit from improvements.
