Rebecca L. Tepper  
SECRETARY

Ashley E. Randle  
COMMISSIONER

### Notice

Pursuant to the provisions of the Rights-of-Way Management Regulations, 333 CMR 11.00, to apply herbicides to control vegetation along rights-of-way (ROW), a five-year Vegetation Management Plan (VMP) and a Yearly Operational Plan (YOP) must be approved by the Massachusetts Department of Agricultural Resources (MDAR). Great River Hydro, LLC has submitted and approved in May 2026, therefore, notice of receipt of a YOP and procedures for public review is hereby given as required by Section 11.06 (3).

Great River Hydro, LLC submitted a YOP to MDAR in May 2026. Under this YOP Great River Hydro, LLC will conduct an Integrated Vegetation Management (IVM) program along unfenced embankments of power generation canal banks, access roads, a portage, boat landing and conduits. The intended vegetation control program will be consistent with Great River Hydro, LLC's 2026-2030 VMP. In accordance with the guidelines set forth in the VMP and YOP, herbicides will be selectively applied to target vegetation by licensed/certified applicators carrying backpack or hand-held application equipment as part of their IVM program.

Great River Hydro, LLC's YOP identifies the following three Commonwealth of Massachusetts municipalities as locations where they intend to use herbicides to treat their electric Rights-of-Way in 2026: Buckland, Florida, and Monroe.

Great River Hydro, LLC will only use herbicides recommended by MDAR for use in Sensitive Areas. Pursuant to 333 CMR 11.04, no herbicides will be sprayed within any designated "no spray sensitive areas" instead mechanical only methods will be used to control vegetation.

A public notification will be provided to each "affected" municipality according to applicable Commonwealth of Massachusetts regulations including the public notice under 333 CMR 11.07, at least 21 days prior to any herbicide application.

In accordance with 333 CMR 11.06 (2), Great River Hydro, LLC's YOP includes the identification of target vegetation; methods of identifying, marking and protecting sensitive areas; application techniques; the herbicides, application rates, carriers and adjuvants proposed for use; alternative control measures, a list of the application companies and YOP supervisor; procedures for handling, mixing and loading herbicides; emergency resources including local, state and federal emergency telephone numbers; maps of the ROW which included mapped sensitive areas, and herbicide fact sheets and labels.

### PUBLIC REVIEW

The MDAR seeks to verify the location of sensitive areas defined in 333 CMR 11.02 & 11.04 and reported in the YOP. MDAR itself has a limited ability to survey the geography, land use and water supplies in all the communities through which ROWs pass. Municipalities have most of this information readily available, and the particular knowledge with which to better certify the sensitive areas in their communities. MDAR, therefore, requests, and urges the assistance of the "affected" municipalities in reviewing the completeness and accuracy of the maps contained in the submitted YOP.

MDAR has established the following procedures for this review:

Copies of the YOP and this *Notice* will be sent by the applicant to the Conservation Commission, Board of Health (or designated health agent), and the Head of Government (Select Board) of each municipality where herbicides are to be applied during the calendar year 2026; and if applicable to the Natural Heritage Endangered Species Program of the Massachusetts Department of Fisheries and Wildlife, the Massachusetts Water Resource Authority and the Massachusetts Department of Conservation and Recreation. Municipal agencies and officials will have forty-five days, following receipt of the YOP, to review its maps for inaccuracies and omissions in the location of "sensitive areas not readily identifiable in the field."

Municipal agencies and officials are requested to forward the YOP to the appropriate official(s) in their municipality qualified to certify the accuracy of the sensitive areas indicated on the maps. The maps should then be "corrected" and returned to the applicant and a copy should be sent to MDAR at the address listed below within the forty-five day review period.

If a city or town needs more time to carry out this review, it should send a written request for an extension to MDAR and cite why there is a "good cause" for requesting additional time.

The applicant is required to make all corrections and the corrected maps will be sent back to the city/town that requested the disputed changes within fifteen days of receipt of the request. MDAR will decide whether or not the YOP should be approved without the requested changes. MDAR will consider the "final approval" of a YOP individually for each municipality.

The twenty-one day public review period of the Municipal ROW notification letter may serve concurrently with the forty-five day YOP review period in order to provide public notifications as required by 333 CMR 11.07, if the applicant has an approved VMP and if all the requisite city-town offices that received copies of the YOP completed their review and all corrections were duly made by the applicant and approved by MDAR.

A failure by the city/town to respond to the applicant's submission of the YOP within the forty-five day period will automatically be considered by MDAR to indicate agreement by the municipal officials with the sensitive area demarcations provided by the applicant in their YOP.

Any questions or comments on the information provided in this *Notice* and the procedures established for the municipal review outlined above should be addressed to:

Clayton Edwards  
Rights-of-Way Programs  
Massachusetts State Pesticide Program  
225 Turnpike Road, 3rd Floor  
Southborough, MA 01772

Any questions or comments regarding the YOP should be addressed to:

Mr. Timothy Harty, Environmental Specialist  
Great River Hydro, LLC  
Walpole Office  
2 Killeen Street  
North Walpole, NH 03609  
(603) 445-6813

**COMMENT PERIOD ENDS AT THE CLOSE OF BUSINESS (5pm) July 24, 2026**
