

CAMP GDB

WHEN: June 23-27, 2025 | COST: FREE

WHERE: Hull Park Foundation and Learning Center in Sandy, Oregon

OPEN TO: Teens ages 14-17 who are blind or have low vision

The benefits of having a dog in one's life are far-reaching. Those who choose to share their life with a guide dog will develop more independence and an increased sense of responsibility, along with enhanced social connections, and more life experiences and opportunities. At Camp GDB, participants will explore the companionship, independence, and responsibility of a partnership with a guide dog. There will be hands-on fun and unique activities with dogs, and campers will learn why orientation and mobility (O&M) skills are so important for a successful relationship with a guide dog. New friendships will be made, and no camp would be complete without fireside s'mores (of course)!

To learn more, scan the QR code or visit guidedogs.com/campgdb

Applications are DUE on or before March 31, 2025

We recommend you apply early as summer programs are popular and fill up quickly.
