2025 In-service Training Requirements

In accordance with Massachusetts General Law Chapter 102, Section 19A, the Massachusetts Harbormaster Training Council has established the in-service training requirements for appointed Harbormasters and Assistant Harbormasters.

On April 3, 2025, the Council convened and formally approved the mandatory 20-hour in-service training requirements for the year. Eligible training for 2025 includes all maritime, law enforcement, environmental, medical, mental health, and crisis intervention-related programs.

Members are encouraged to independently maintain and document their annual training records to ensure compliance with these requirements.
