Such relief shall be in writing and in the form of an amendment to this License. The Issuing Authority shall convene a public hearing on the issue within sixty (60) days of Licensee's notification to the Issuing Authority requiring such relief, unless otherwise mutually agreed to. At the public hearing, the Issuing Authority shall afford Licensee an opportunity to demonstrate that any existing or future service providers in the Town have been provided relief by the Issuing Authority from any obligation of its cable television license. ARTICLE 3

SYSTEM SPECIFICATIONS AND CONSTRUCTION

SECTION 3.1 - AREA TO BE SERVED

(a) Licensee shall make Cable Service available to every residential dwelling unit within the Town where the minimum density is at least fifteen (15) dwelling units per aerial mile and thirty (30) dwelling units per underground mile, both as measured from the existing Trunk and Distribution System and where the Licensee is able to obtain from property owners any necessary easements and/or permits in accordance with Cable Act. Licensee shall make service available to multiple dwelling units (MDU) where economically feasible and where Licensee is able to obtain from the property owners any necessary easements, permits and agreements to provide service to said MDU. Subject to the density requirement, Licensee shall offer Cable Service to all new homes or previously unserved homes located within two hundred feet (200') of Licensee's Distribution Cable. For non-Standard Installations, Licensee shall offer said service within ninety (90) days of a Subscriber requesting Service for aerial installations and one hundred eighty (180) days, weather permitting, of a Subscriber requesting Service for underground installations. With respect to areas of the Town which are currently served by Licensee from a contiguous cable system or currently unserved but could be served by abutting Town (s) served by Licensee, Licensee shall have the option to serve such areas from its cable television system in such abutting Town.

(b) Installation costs shall conform with the Cable Act. Any dwelling unit within an aerial two hundred feet (200) of the Trunk and Distribution Cable shall be entitled to a Standard Installation rate in accordance with applicable federal and state laws. Underground installations are considered non-standard. All non-standard installations shall be provided at a rate established by the Licensee in accordance with applicable federal and state laws.

(c) Provided Licensee has at least ninety (90) days' prior written notice concerning the opening of residential subdivision trenching, or of the installation of conduit for the location of utilities, Licensee shall install its cable in such trenching or conduits or may seek permission to utilize alternative trenching or conduits within a comparable time frame. If a substantial quantity of cable is required for a large subdivision and said quantity is not in stock, Licensee shall be allowed additional time for said installation. The Issuing Authority, or its designee, shall exercise reasonable efforts to have the Planning Board and developers give timely written notice of trenching and underground construction to Licensee. Developer shall be responsible for the digging and back-filling of all trenches.

Section 3.2---LINE EXTENSION POLICY

(a.) Notwithstanding the provisions of Section 3.1(a) above, the Licensee shall extend its cable plant in Hardwick and make Cable Service available along the portions of the following Public Ways and in the manner described below within three (3) years of the Effective Date of this Renewal License:

Greenwich Road: beginning at pole #6/47 extend the cable plant on Greenwich Road to pole #51/57.

Partridge Hollow Road: beginning at pole #39/45 on Greenwich Road, extend the cable plant on Partridge Hollow Road to pole #18/18.

Thayer Road: beginning at pole #39/45 on Greenwich Road, extend the cable plant on Thayer Road to pole #28/16.

Hall Road: beginning at pole 8/8 on Thayer Road, extend the cable plant on Hall Road to pole #12.

Fisk Road: beginning at pole #5/6/6 on Thayer Road, extend the cable plant on Fisk Road to pole #29/20.

Short Road: beginning at pole #29/20 on Fisk Road, extend the cable plant on Short Road to pole #8/8.

Old Greenwich Plains Road: beginning at pole #29/23 at the corner of Minor Road and Collins Road, extend the cable plant on Old Greenwich Plains Road to pole #6/6.

Miner Road: beginning at pole #21/27 on Old Greenwich Plains Road extend the cable plant on Miner Road to pole #14.5.

Collins Road: beginning at pole #29/23 at the corner of Old Greenwich Plains Road, extend the cable plant on Collins Road to pole #24/8.

- (b.) The Cable Television System shall be further extended to all areas in the Town that do not meet the requirements of section 3.1 (a) above upon the request of the dwelling unit owners in such areas and based upon the following cost calculation: The cost of wiring such areas shall be calculated by taking the capital cost of extending such service divided by the number of dwelling units requesting Cable Service in such area minus the costs of extending Cable Service to dwelling units in an area that meets the density requirement specified in Section 3.1 (a) above. The resulting cost shall equal the per dwelling unit contribution relating to line extension of Cable Service in that particular area of the Town, or:

$$\frac{C}{LE} - \frac{CA}{P} = SC$$

- C equals the cost of construction of new plant from the termination of existing Trunk and Distribution System;
 - LE equals the number of dwelling units requesting Cable Service in the line extension area, who subsequently pay a contribution in aid;
 - CA equals the average cost of construction per mile in the primary Service area;
 - P equals the 15 dwelling units per linear mile of aerial plant or 30 dwelling units per linear mile of underground plant both as measured from the existing Trunk and Distribution System; and
 - SC equals the per dwelling unit contribution in aid of construction in the line extension area.
- (c.) The Town shall make its best efforts to notify the Licensee, including, without limitation, having the Town Clerk so notify the Licensee, in advance whenever new developments are under consideration by Town agencies.

SECTION 3.3--- LINE EXTENSION PROCEDURES

- (a) Any potential Subscriber located in an area of the Town without Cable Service may request such Cable Service from the Licensee. In areas meeting the requirements of Section 3.1 (a) above, the Licensee shall extend Cable Service to the area promptly, but in no case later than ninety (90) days after all necessary permits and pole attachment licenses are obtained, subject to Force Majeure (including the performance of make-ready work). The Licensee shall expeditiously seek all necessary permits and pole attachment licenses.
- (b) In those areas with less than fifteen (15) dwelling units per aerial mile or thirty (30) dwelling units per underground mile of cable plant, both areas as measured from the existing Trunk and Distribution System, the Licensee, shall, within forty-five (45) days following a request for Cable Service, conduct a survey to determine the number of dwelling units in the immediate area and shall inform each participating dwelling unit of the possible contribution in aid of construction (see Section 3.2 (b) above) that will be charged. The Licensee shall apply for all necessary permits and pole attachment licenses within thirty (30) days of receiving the contribution in aid of construction from all participating dwelling units. Cable Service(s) shall be made available and fully activated to all requesting dwelling units who made a contribution in aid of construction within ninety (90) days of receipt of all necessary permits and pole attachment licenses by the Licensee, subject to Force Majeure (including the performance of make-ready work).

SECTION 3.4 - SUBSCRIBER NETWORK

Licensee shall maintain a Cable Television System, fully capable of carrying a minimum bandwidth of 750MHz.

SECTION 3.5 - SUBSCRIBER NETWORK CABLE DROPS

(a) Licensee shall maintain the current level of existing active Drops, Outlets and Basic Cable Service, at no charge to the Town, to each Public Building, public school, police and fire stations, public libraries and other Public Buildings as designated by the Issuing Authority within

The Issuing Authority or its designee shall consult with a representative of Licensee to determine the appropriate location of the Public Building's Outlet prior to requesting that Licensee install service at no charge.

(c) Nothing in this Section shall require Licensee to move existing or install additional Drops or Outlets at no charge to those buildings included in **Exhibit A**, or to move existing or install additional Drops or Outlets to buildings already installed pursuant to subsection (b) above.

(d) It is understood that Licensee shall not be responsible for any internal wiring of such Public Buildings.

SECTION 3.6 - PARENTAL CONTROL CAPABILITY

(a) Pursuant to applicable law, upon request, and at no separate, additional charge, Licensee shall provide Subscribers with the capability to control the reception of any channel on the Cable System.

(b) The Issuing Authority acknowledges that the parental control capability may be part of a converter box and Licensee may charge Subscriber for use of said box.

The Cable System shall be operated and maintained so as to comply with the technical standards set forth in the FCC's rules and regulations as they apply to cable television systems.

(f) Upon written notice from the Issuing Authority, Licensee shall remedy a general deficiency with respect to the technical standards described herein within three (3) months of receipt of notice and a safety deficiency within forty-eight (48) hours of receipt of notice and shall notify the Issuing Authority when the deficiency has been corrected.
