NOTICE OF FINAL LICENSE DETERMINATION

In Re: Issuance of Final Hazardous Waste Facility License #29B/23
Issued to: Safety Kleen Systems, Inc.
224 East Main Street
West Brookfield, MA 01585
EPA ID # MAD096287354

On October 20, 2016, the Department of Environmental Protection (MassDEP) issued a five-year license to Safety-Kleen Systems located in West Brookfield (SKWB). In August 2021, Safety-Kleen submitted a license renewal application to allow the company to continue hazardous waste facility operations at its site in West Brookfield, MA. Following a technical review of the application, MassDEP prepared a draft license. This draft included one change requested by SKWB in Section B – Specific License Conditions, part 2.0, Authority to Manage Hazardous Waste, paragraph 2.f - that allows for the transfer of non-hazardous waste from non-bulk containers into totes. Several typographical errors were also corrected in the draft license. Public Notice of the draft license was given in the Worcester Telegram & Gazette on October 28, 2022. Copies of the draft license were available for public review at the Marlborough Board of Health, the Marlborough Public Library, MassDEP's Worcester, and Boston Offices and the USEPA New England - Region I Office in Boston. The public comment period was held from October 28, 2022, through December 12, 2022. The Department did not receive any comments during the 45-day comment period on the draft license as issued.

Therefore, MassDEP grants Safety-Kleen Systems, Inc. West Brookfield, Massachusetts a final hazardous waste facility license. Any person aggrieved by this decision may request an adjudicatory hearing before MassDEP; please refer to the “Appeal Rights and Time Limits” procedures Attached to this notice. The final license becomes effective either (a) 21 days after the date of execution by MassDEP of the Certification Statement pursuant to 310 CMR 30.838(1) unless the final determination is appealed during the 21-day period, or (b) at the conclusion of the Adjudicatory Hearing Process, pursuant to M/G.L. c. 21C and c. 30A, and 310, CMR 1.00.
