

Hepatitis A is going around.

Hepatitis A is a virus that can cause liver disease.

Protect yourself: Take these steps to prevent hepatitis A

Get a vaccine (one shot) if you:

- Are experiencing homelessness
- Use drugs/alcohol
- Have liver disease like hepatitis C
- Are a man who has sex with men
- Were recently in jail or prison

Wash your hands* ANYTIME you:

- Go to the bathroom
- Make, eat, or serve food/drink
- Use drugs

*Washing with soap and warm water is best. If you can't wash, use hand sanitizer.
