

ALERT

WHAT YOU DO MATTERS.

Active Attack Integrated Response (AAIR) is a **16 hour** performance level course designed to improve integration between law enforcement, fire, tele-communicator and emergency medical services (EMS) in active attack / shooter events. The course provides law enforcement officers with key medical skills based on tactical emergency casualty care (TECC) guidelines, which can be used at the point of injury (POI) to increase survivability of victims. The course also provides a model framework for law enforcement, fire, and EMS to integrate responses during an active attack / shooter event through the rescue task force concept outlined in **NFPA 3000**. This course has been designed to improve the safety and survivability of victims of active attack / shooter events and increase the effectiveness, coordination, and resource integration between law enforcement, fire, tele-communications and EMS.

This course is free and includes 6 hours of EMS Continuing Education.
Regional Homeland funding is available to reimburse back-fill or overtime up to \$40 per hour.
