

Highway Administrator Report

October 18th, 2023

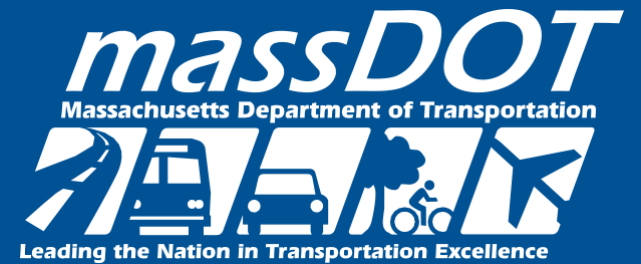

Table of Contents

- 3 Bourne Bridge Rehabilitation
- 4 Project Development &
Design Guide
- 5 Municipal Grants Update

Bourne Bridge Rehab

Work includes repairs to bridge roadway, steel supports, and abutment structures

3

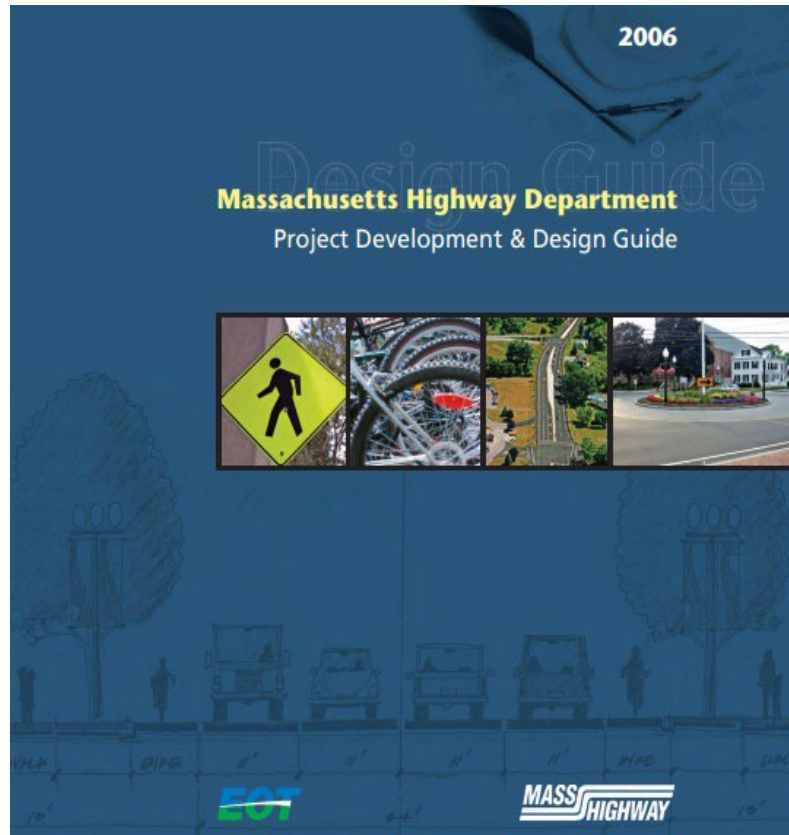

- Work being undertaken by US Army Corp of Engineers.
- Phase 1 is complete
- Phase 1 consisted of structural and roadway repairs along the sidewalk side
- Phase 2 began on September 17th. Consisting of structural and roadway repairs along the two middle lanes on the bridge.
- Phase 3 is scheduled to begin around October 18th

Project Development & Design Guide

Revising our 2006 guide

4

- One-third of the chapters are already updated and posted on our website
- The remaining chapters are expected to be revised by the end of 2024
- Engaging regularly with FHWA and consultants to review revisions
- Guide will match the latest directives and manuals
- Switching to a more contemporary web-based version will make future updates easier

Municipal Grants Update

The grants provide \$266M annually

5

- Shared Streets and Spaces Program: funds quick-build projects, improving public health, safety, and mobility; administering \$5M in FY24
