

**Background:**

Chapter 139 of the Acts of 2017 requires the Executive Office of Aging & Independence (AGE) to create and implement a Home Care Worker Registry (Registry). The purpose of the registry is to make certain Home Care Worker information available to the public and employee organizations as specified by law. The regulations (651 CMR 16.00) establishing the Registry describe its administration and create an exemption process to protect the personal information of Home Care Workers covered by the regulations.

This list represents the publicly available information from the Home Care Worker Registry for June 2026.
