

**Housing Production Plan Section II. B of  
“MG.L. c. 40B Comprehensive Permit /Projects  
Subsidized Housing Inventory.”**

**GUIDELINES**

Updated October 2020

For the entire Chapter 40B Guidelines, they are posted at  
[www.mass.gov/dhcd](http://www.mass.gov/dhcd)

Regulatory Authority: see 760 CMR 56.00

## **B. Housing Production Plans**

### 1. Introduction

#### a. What Is the Plan?

A Housing Production Plan (HPP) in 760 CMR 56.03(4) is a proactive strategy for planning and developing affordable housing. It should be developed with opportunities for community residents to become informed of the planning process and the plan, and to provide input. The HPP will assist communities to plan for low and moderate income residents by providing a diverse housing supply. The community should:

- (1) Develop a strategy which will be used to meet its affordable housing needs in a manner consistent with the Chapter 40B statute and implementation regulations; and
- (2) Produce housing units in accordance with its HPP.

The HPP identifies the housing needs of a community and the strategies it will use to make progress in facilitating the development of affordable housing. The HPP must be consistent with the regulation and these Guidelines. HPPs approved by DHCD are posted at [www.mass.gov/dhcd](http://www.mass.gov/dhcd).

#### b. Why produce a Plan?

By taking a proactive approach in the adoption of a HPP, cities and towns are much more likely to achieve both their affordable housing and community planning goals. HPPs give communities that are under the 10% threshold of Chapter 40B, but are making steady progress in producing affordable housing on an annual basis, more control over comprehensive permit applications for a specified period of time.

### 2. Elements

#### a. Comprehensive Housing Needs Assessment

It is important to understand who currently lives in the community, demographic trends affecting future growth, existing housing stock and future housing needs. The HPP must establish a strategic plan for municipal action with regards to housing, based upon a comprehensive housing needs assessment that, at a minimum, examines:

- (1) The most recent available census data of the municipality's demographics and housing stock. Reviewing census data is the starting point for a community's analysis and information may be found at <http://www.census.gov/>. Regional Planning Agencies, realtors and the media are also sources of information that may be used in an HPP.
- (2) A projection of future population and housing needs, taking into account regional growth factors, that covers the entire period of the plan. The projections should address, specifically, the housing needs of the projected population at various income levels including: not more than 30% AMI, more than 30% but not more than 80% AMI, and more than 80% but not more than 120% AMI, taking into account the likely family composition of such households.
- (3) Development constraints and limitations on its current and future needs should be clearly articulated. Maps can be helpful in identifying steep slopes, watershed areas or brownfields.

- (4) The municipality's plans to mitigate such constraints. Can any of the factors be mitigated to support development?
- (5) The capacity of the municipality's infrastructure to accommodate the current population and anticipated future growth, including plans for enlargement or expansion of existing infrastructure systems to ensure that both current and future needs are met. The infrastructure analysis should evaluate the capacity of water and sewer systems, roads, utilities, public transit, schools, and any other public facilities that will impact or be impacted by future housing development.

It may not be necessary for a community to create an entirely new plan to meet these requirements. Many communities have already adopted a plan or a series of plans that contain some or all of the required elements. Current master plans, consolidated plans, or other housing strategies may contain some or all of the elements of a HPP. Municipalities may contact DHCD's Office of Sustainable Communities for assistance in converting such plans to an HPP.

However, municipalities must ensure that the existing plans or data are up-to-date. DHCD will request that a community update its former Affordable Housing Plan/Planned Production Plan, consistent with the requirements of these Guidelines, if the affordable housing plan was approved five or more years ago.

#### b. Affordable Housing Goals

In addition to its needs assessment, when formulating its affordable housing goals, the community should also consider the types of housing most likely to be needed and, generally, its fair housing obligations. What is the projected population of: working age? new household formation? special needs? elderly? frail elderly? What percentage of these populations is projected to be at not more than 30% AMI? at more than 30% but not more than 80% AMI? At more than 80% but not more than 120% AMI? Does the existing housing supply match the needs of these populations? Does the community expect that there will be a range of housing types which will be affordable to each income group? Therefore, the HPP must address, at a minimum, the following matters:

- (1) A mix of types of housing, consistent with community and regional needs that:
  - (a) Is affordable to households at not more than 30% AMI, more than 30% but not more than 80% AMI, and more than 80% but not more than 120% AMI;
  - (b) Provides for a range of housing , including rental, homeownership, and other occupancy arrangements, if any, for families, individuals, persons with special needs, and the elderly; and,
  - (c) Is feasible within the housing market in which they will be situated.
- (2) A numerical goal for annual housing production, pursuant to which there is an increase in the municipality's number of SHI Eligible Housing units by at least 0.50% of its total units (as determined in accordance with 760 CMR 56.03(3)(a)) during every calendar year included in the HPP, until the overall percentage exceeds the Statutory Minimum set forth in 760 CMR 56.03(3)(a). There should be a direct link between the setting of these goals and the results of the needs assessment. The numerical goal should be based on the total year round number of housing units. The total year round housing units is the total number of units for the community in the latest U.S. Census including any changes due to demolition or new construction.

#### c. Implementation Strategies

The HPP shall include an explanation of the specific strategies by which the municipality will achieve its housing production goals as well as a time frame/schedule for achieving the housing goals identified. Each goal should include several specific milestones to indicate progress, including all of the following strategies, to the extent applicable:

- (1) The identification of zoning districts or geographic areas in which the municipality proposes to modify current regulations for the purposes of creating SHI Eligible Housing developments to meet its housing production goal. Zoning indicates a community's interest in the types of uses to be encouraged. The zoning strategy should identify points where the zoning needs to be changed to accommodate additional dwelling units: Can density be increased? Can accessory apartments be accommodated? Are upper story residential units allowed in commercial districts? In identifying geographic areas, communities must ensure that any constraints can be overcome in a timely and cost effective manner. Additionally, communities should consider the Commonwealth's Sustainable Development Principles at: <http://www.mass.gov/hed/docs/dhcd/cd/smartgrowth/sdprinciples.pdf>.
- (2) The identification of specific sites for which the municipality will encourage the filing of Comprehensive Permit applications. Identification of specific sites should be consistent, to the greatest extent possible, with Sustainable Development Principles. Strategies should include any proposed zoning changes, advantages to construction on the site, an acknowledgement of site constraints, and the costs to overcome such constraints.
- (3) Characteristics of proposed residential or mixed-use developments that would be preferred by the municipality for example, infill development, cluster developments, adaptive re-use, transit-oriented housing, mixed-use development, and/or inclusionary zoning. Preferred characteristics should take into account the surrounding context of the built and natural environment. Characteristics placing special restrictions on the development of affordable housing, such as limiting size of affordable units, limiting diversity in types of housing, or applying other zoning constraints, will not be approved. In addition, affordable housing plans must be in compliance with all state and federal fair housing laws.
- (4) Identification of municipally owned parcels for which the municipality commits to issue requests for proposals (RFP) to develop SHI Eligible Housing, including information on appropriate use of the site, and a timeline for the issuance of an RFP. DHCD can provide some assistance in the development of such an RFP.
- (5) Participation in regional collaborations addressing housing development. Communities are encouraged to contact the Regional Planning Agencies for insight into establishing regional collaborations.

### 3. Review and Approval

Communities may submit a HPP developed in accordance with the regulation and these Guidelines to DHCD at any time.

#### a. Review Standards

HPPs are reviewed to see that they contain all the required elements, in accordance with the regulations and these Guidelines; and that the elements of the HPP are consistent with each other, such as whether the goals address stated needs. Reviewers pay special attention to the analysis of data, numerical goals, mix of housing proposed, production schedules, deed restrictions, and preferred sites for affordable housing development.

#### b. Review Process

The Department shall conduct an initial 30-day completeness review, and it will notify the municipality of any deficiency and offer an opportunity to remedy the deficiency. Within 90 days after the Department's finding that the HPP is complete, the Department shall approve the HPP if it meets the requirements specified herein; otherwise, it shall disapprove the HPP. The Department shall notify the municipality of its decision to either approve or disapprove a HPP in writing. If the Department disapproves a HPP, the notification shall include a statement of reasons for the disapproval. If the Department fails to mail notice of approval or disapproval of a HPP within 90 days after its receipt, it shall be deemed to be approved. A municipality that originally submitted a HPP that had been disapproved may submit a new or revised HPP to the Department at any time.

#### 4. Amendments

A community may amend its HPP at any time to reflect changes in local circumstances. DHCD does not require that communities submit amendments when specific projects change, such as in size or location. However, communities are encouraged to submit amendments for DHCD approval, to document the change(s) if the overall goals or strategies are revised. If, in the discretion of DHCD, the amendment is considered to be a major change, such as the incorporation of new census data, the Department may require the full 90 day review process. Amendments shall not change the effective date of an HPP.

#### 5. Term of a Plan; Renewal

The term of an HPP shall be five (5) years from the date of its approval by the Department. All HPPs shall be updated and renewed within five (5) years of the date of its approval by the Department, through the full 90-day review process set forth above, or as the Department may otherwise require. The Department may, at its sole discretion, elect to treat a major amendment as a renewed HPP.

#### 6. Certification of Municipal Compliance with the HPP

- a. Requests for certification will be accepted by DHCD at any time during the calendar year in which the units are produced and up to January 10 of the following year. A community will be certified in compliance with an approved HPP if, during a single calendar year, it has increased its number of low- and moderate-income year round housing units (as counted on the SHI) in an amount equal to or greater than that enumerated in the approved HPP (0.5% or 1.0%). See Appendix II.3, "HPP Certification Thresholds by Municipality" for current certification thresholds.
- b. Units counted for certification must be produced after the effective date of a plan (i.e., the date DHCD approved the plan).
- c. SHI Eligible Housing units shall be counted for the purpose of certification when they are first eligible for inclusion in the SHI in accordance with the provisions set forth in 760 CMR 56.03(2).
- d. If a community issues a permit between December 20<sup>th</sup> and December 31<sup>st</sup> (inclusive), of a given year, the request may be submitted prior to the end of the 20-day appeal period.
- e. The Department shall determine whether a municipality is in compliance within 30 days of receipt of the municipality's request and notify the Chief Executive Officer in writing of its decision.

#### 7. Effective Date of a Plan

An HPP shall be effective as of the date that DHCD approved the plan. The effective date of an approved plan shall not change as a result of amendment to the plan.

8. Effective Date of Certification

Regardless of the date of the certification notice, the Certification shall be deemed effective as of the date that the municipality achieved its numerical target for the calendar year in question, in accordance with the rules for counting units on the SHI set forth in 760 CMR 56.03(2).

9. Term of Certification

So long as the units produced are SHI Eligible Housing units (see 760 CMR 56.03), a certification shall be in effect for a period of one year from its effective date if the community has increased its SHI Eligible Housing units 0.5% of the total year round housing units, or two years from its effective date if it has increased its number of SHI Eligible Housing units 1.0% of total year round housing units. If the units by which the municipality achieved its certification become ineligible for the SHI, then the certification shall lapse as of the date that the units became ineligible for the SHI. If such units become eligible for the SHI during the remaining term of the certification period, then the certification shall be re-instated for such remaining term.

For example, if a community's HPP is certified by DHCD on June 13, 2019, for affordable units that became eligible for the SHI on February 13, 2019 totaling 0.5% of housing units, the certification period begins on February 13, 2019, and ends on February 12, 2020. If the request was based on an increase of 1.0% of housing units, the certification period would end on February 12, 2021.

10. Relation to "Local Needs"

If a community is certified compliant, decisions made by the Board to deny a comprehensive permit will be deemed Consistent with Local Needs under the Act by the HAC, and the Board's denial of a comprehensive permit application will be upheld as a matter of law, provided that the Board complies with the requirements of 760 CMR 56.03(8).

11. Submission Requirements

a. HPPs

HPPs, amendments and updates must be accompanied by:

(1) a letter signed by the Chief Executive Officer that states that the document:

- (a) Was adopted by the municipal planning board and select board or city council (the Chief Executive Officer, is the mayor in a city and the chair of the board of selectmen in a town, unless some other municipal office is designated to be the chief executive officer by the local charter);
- (b) Constitutes the community's affordable housing plan (for the HPP), or is an amendment or an update; and
- (c) Requests approval from DHCD.

- (2) A cover letter that includes a municipal contact name, telephone number and email address. They may be submitted in either hard or electronic copy. Following the Department's approval, an electronic copy must be submitted for posting on the agency's website.

b. Requests for Certification

- (1) Requests for certification must be accompanied by a letter signed by the Chief Executive Officer and contain any required documentation (e.g. comp permits and/or the "Requesting New Units Form for the Subsidized Housing Inventory"). These documents are evidence that the required number of housing units has been produced during a calendar year and:
  - (a) Have been newly produced pursuant to the approved HPP and in the same year for which certification is requested;
  - (b) Are, for the first time, eligible to be counted on the SHI (e.g., are not the subject of a modified or amended permit from a prior year); and
  - (c) Are produced pursuant to the affordable housing plan.
- (2) The town manager or administrator may submit the certification request if given signatory authority by a local charter.

c. HPPs, amendments, updates and requests for certification should be sent to:

Jennifer Maddox, Undersecretary  
Department of Housing & Community Development  
100 Cambridge Street, Suite 300  
Boston, MA 02114  
Attn: Phil DeMartino

**In addition to hard copies, please email all documents during the Covid 19 State of Emergency to: [phillip.demartino@mass.gov](mailto:phillip.demartino@mass.gov)**

12. Technical Assistance

Department staff are available to answer questions on any matter related to HPPs. Please call 617-5731357. The Department's website at [www.mass.gov/dhcd](http://www.mass.gov/dhcd) also contains information that may be useful to municipalities in creating an HPP.
