

CLIMATE CHANGE COULD BE HARMFUL TO BEES AND OTHER POLLINATORS

The impact of climate change on some of our
smallest ecosystem heroes.

POLLINATORS PLAY A VITAL
ROLE IN MAINTAINING
HEALTHY ECOSYSTEMS.

WE NEED POLLINATORS TO
HELP PLANTS GET FROM
FLOWERS TO FRUITS.

→
CRANBERRIES ARE
THE LARGEST FRUIT
CROP IN THE STATE.
BEES AND OTHER
POLLINATORS ARE
CRITICAL FOR
CRANBERRY FRUIT
PRODUCTION

YOU CAN HELP OUR POLLINATORS BY PLANTING POLLINATOR FRIENDLY GARDENS
