

# How to download Land Cover Land Use (2016) shapefiles

1

Click on [this Permalink](#) to open OLIVER with the map shown at right.

2

Use the Identify tools:

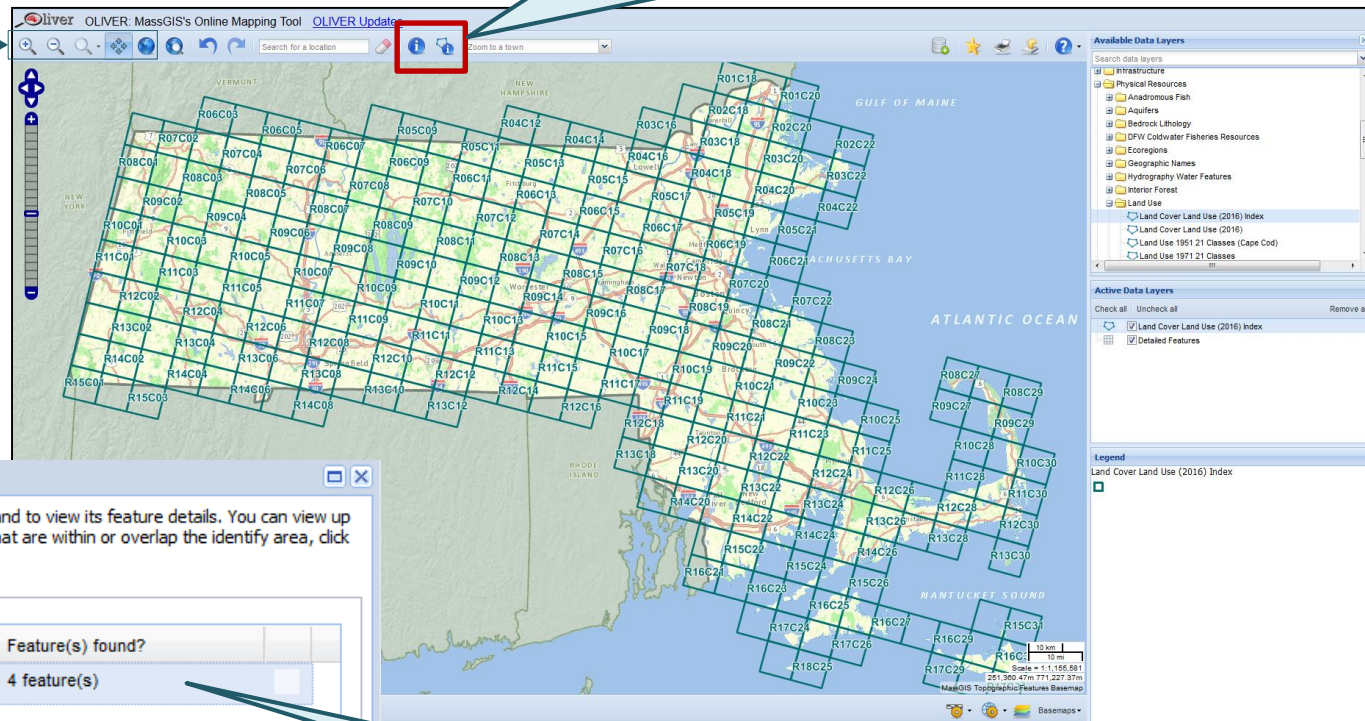

Click to select one tile

Click and draw a box to select multiple tiles

Tip: use the Zoom In and Pan tools to view town name labels

## Identify results

Select a data layer to highlight its features on the map and to view its feature details. You can view up to 500 features per data layer. To export data layers that are within or overlap the identify area, click [here](#) to launch the data export wizard.

### Data layers

Data layer name	Feature(s) found?
Land Cover Land Use (2016) Index	4 feature(s)

### Feature details

Select all	Unselect all	Zoom-to all
tilename	shp_link
