

Want to learn more about In-Home Therapy? Call an IHT provider?

Go to www.mabhaccess.com -- the Massachusetts Behavioral Health Access website.

To begin, Click on “Find Provider Openings” under Youth and Family Services.

Go to “Select Service” and select IHT from the drop-down menu.

Enter your child’s age in “Specify age” and then enter either your zip code or city to find a list of local providers.

You can see their ability to accept new referrals, though this does not guarantee an appointment or placement.

You can also download or order free brochures with information about In-Home Therapy and other MassHealth services. Go to www.mass.gov/masshealth/cbhi

Scroll to the “What you need to know” section and and click CBHI Brochures and Companion Guide.

You can download copies or fill out the online order form to receive free copies of the brochure

Please note that provider listings are subject to change. For the most current information, go to www.mabhaccess.com or call your MassHealth plan.
