How to Look Up UST Facility Third-Party Inspection Due Dates

It is easy to access real-time information on Massachusetts underground storage tank (UST) facilities – including their next third-party inspections (TPI) due dates – using the MassDEP UST Data Management System (DMS). Simply follow the instructions below.

Individual Facility TPI Due Dates

- These may be viewed by clicking on the Facility List Search tab on the DMS home page, then opening the facility of interest. This is a public lookup. No user account is needed.

Multiple Facility Searches

- These may be performed using Advanced Search, which allows you to specify search criteria/parameters and also to export the resulting data. Advanced search is available only to registered DMS users. Anyone may create a user account. Instructions for looking up all TPIs due during a specific time period:

Step 1: Set up a User Account and Login to the DMS.
