

What is the HUB for Construction?

A digital, centralized space for resources

- Connects project stakeholders
- Consolidates resources for businesses, prime contractors, Owner's Project Managers (OPMs), and vendors
- A space where users can interact and access information in real time.

A support system for project delivery

- Enables project planning, advertisement, vendor coordination, and OPM engagement
- Aligns with design and construction workflows, ensuring consistency and accountability
- The MSBA Project Advisory 97 – est. January 2026*

A way to find qualified partners

- Strengthens engagement and participation among diverse and small businesses
- Makes it easier for primes, municipalities, and OPMs to identify qualified partners

A tool to track finances and benchmarks

- Real-time tracking of spending data
- Real-time spending results, allowing project teams to monitor participation, evaluate progress, and improve reporting accuracy

For any questions, contact us at sdo.construction@mass.gov

*MSBA Project Advisory 97 "Owner's Project Managers and Designers will be expected to utilize the SDO's online reporting system, presently known as "The Hub," and will be expected to adhere to all requirements set forth in M.G.L. c. 7, § 61, as well as any associated guidance from the SDO."
