HYSTERECTOMY INFORMATION FORM

Instructions to Providers — Each provider requesting payment for any portion of a hysterectomy must attach a completed HI-1 form to the claim form. When more than one provider is requesting payment for the same hysterectomy, a photocopy of the completed form may be submitted in lieu of the original. Signature and date stamps, or the signature of anyone other than the physician who performed the hysterectomy, are not acceptable.

A. HYSTERECTOMY INFORMATION

A hysterectomy is an operation in which a woman's uterus (womb) is removed. A hysterectomy should be done only when there is a disease or injury of the uterus (or some other medical problem) that can only be treated by removing the uterus. Your doctor should explain to you why a hysterectomy is needed and what discomforts, risks, and benefits may result from the surgery.

If you have a hysterectomy, you cannot become pregnant or bear children. A hysterectomy is permanent and cannot be reversed.

If the reason you are having a hysterectomy is to avoid bearing children, you should consider other methods of sterilization, such as tubal ligation (having your tubes tied). **MassHealth will not pay for a hysterectomy if the purpose is for birth control.** A hysterectomy takes much longer to do than a tubal ligation, and you would be in the hospital longer. There is more discomfort and a greater chance of serious health problems with a hysterectomy.

B. ACKNOWLEDGEMENT THAT HYSTERECTOMY INFORMATION WAS RECEIVED

Federal regulations (42 CFR 441.255) require that a MassHealth member having a hysterectomy sign written acknowledgement that information about hysterectomies was received before the operation was performed.

Acknowledgement That Hysterectomy Information Was Received

I have read the above information about the hysterectomy operation. A medical person has also explained hysterectomies to me. The discomfort, risks, and benefits that go along with a hysterectomy have been explained to me. All of my questions have been answered to my satisfaction.

I understand that if I have a hysterectomy operation I cannot become pregnant or bear children. I understand that a hysterectomy is permanent and cannot be reversed.
