

I-495/I-90 Interchange Improvements Project: Virtual Public Information Meeting

What is happening?

The Massachusetts Department of Transportation (MassDOT) is advancing the I-495/I-90 Interchange Improvements Project and has scheduled a virtual Public Information Meeting on planned construction and traffic milestones. The project team will present information related to the schedule of construction, after which attendees will have the opportunity to ask questions and provide comments. All abutters, residents, business owners, and interested commuters are welcome to attend.

How will this affect you?

The purpose of the I-495/I-90 Interchange Improvements project is to provide a safe and efficient interchange of the interstate highways I-495 and I-90 while also alleviating traffic congestion. This interchange carries hundreds of thousands of vehicles per day between two of Massachusetts's most significant roadways. To find out more, join us or visit the project website: www.mass.gov/massdot/495-90interchange.
