

# **i-FamilyNet User Management: System Administration Tutorial**

**Department of Children & Families**

**Update date: 01/18/2017**

# Function of Administrators in i-FamilyNet:

- **Following are two aspects of System Administration in i-FamilyNet**
- **Organization:** Create divisions at Corporate / Lead Agency or Service Delivery Sites. Consumers or Cases could be assigned to these divisions for provision of services.
- **Users:** Associate staff to agency or sites or divisions. Provision roles to staff at the associated organizations. This allows the system administrators to control which consumers/cases/homes an i-Familynet user is able to access within their agency.

## Administration roles in i-FamilyNet:

- **System Administrator:** Has the ability to create and manage divisions, attach users to divisions and provision i-FamilyNet roles to users. This role cannot provision other System Administrator roles. The role can be assigned to more than one staff person in a provider agency.
- **Access Administrator:** Has the ability to create and manage divisions, attach users to divisions and provision i-FamilyNet roles to users. This role can provision other System Administrators. The role can be assigned only to one person per agency. Please contact the DCF Help Desk once a staff person has been identified to get this role.

# Creating Divisions

- **Network Provider/ Family Resource Provider:** This functionality allows System Administrators the ability to create one or more organizational divisions within a network provider main organization or Service Delivery Site. Once divisions have been created providers can assign cases, consumers, or family resource homes to those divisions. (Family resource homes are assigned to a staff member within a division). Divisions allow the user to select a specified grouping of cases, consumers, or family resource homes.
- **Lead Agencies:** This functionality will allow the creation of case divisions within a Lead Agency in order to assign cases to specific staff persons. Divisions can be created only by users with a role of system administrators.

# Creating Divisions.. Continued

The screenshot shows a web application interface for organization management. At the top, there are tabs for 'Work Reminders', 'Resources', and 'Admin'. Below these, there are sub-tabs for 'Organizations' and 'Staff'. The main content area is titled 'Organization Management' and is divided into two main sections: 'Organizations' on the left and 'Organization Details' on the right.

The 'Organizations' section on the left contains a list of organization names:

- The Support Center (Provider)
- Intensive Foster Care program (Family Resource Division)
- Support Ctr/ Arlington/ 150 Mass Ave (Service Delivery Site) - This item is highlighted in yellow.
- Western Region 1 (Service Division)
- Western Region 2 (Service Division)
- Support Ctr/ Arlington/ 46 Woodside (Service Delivery Site)

The 'Organization Details' section on the right shows details for the selected organization: 'Support Ctr/Arlington/150 Mass Ave'. It includes fields for 'Name', 'Address', and 'Phone'. Below this, there are tabs for 'Associated Staff' and 'Associated Divisions'. The 'Associated Divisions' tab is active, showing a table of existing divisions:

ID	Division Name	Division Type	Start Date	Action
196241	Western Region 1	Service Division	04/14/2008	[Add]
196242	Western Region 2	Service Division	04/14/2008	[Add]

At the bottom right of the 'Associated Divisions' table, there is an 'Add' button.

- Select the Corporate Level Provider, at the top, or a Service Delivery Site (SDS), or a Lead Agency from the navigation pane.
- Click the “Associated Divisions” tab to the right. You will see any existing Divisions that have been created for that location.
- Click Add to create a new Division.

Organizations | Staff

Organization Management > Organization Division

**Organization Details**

Name	Address	Phone
Support Ctr/Arlington/150 Mass Ave		

**Division** ?

Name\*

Division Type\* -Choose One-

- Enter the new division Name.
- Use the dropdown and select a Division Type . If you are family resource user you will be creating “Family Resource Divisions”. If you are Lead Agency, you should create case divisions, while others will create “Service Divisions”.
- Click “Save”. You can now associate staff to this Division.

# How to End a division

Organization Details				
Name	Support Ctr/Arlington/150 Mass Ave		Address	Phone
Associated Staff		Associated Divisions		
Divisions				
ID	Division Name	Division Type	Start Date	Action
196269	Metro Region 1	Service Division	04/22/2008	⌵
196241	Western Region 1	Service Division	04/14/2008	⌵
196242	Western Region 2	Service Division	04/14/2008	⌵

- Click the “Action” button to the right of the Division that you would like to end.

- Click the “End Division” button.

Organization Management > Organization Division

Organization Details			
Name	Support Ctr/Arlington/150 Mass Ave	Address	Phone
Division			
Name*	Metro Region 1	Division Type*	Service Division

Cancel End Division Save

You cannot end a division that still has consumers/cases/homes assigned to it. If you attempt to do so you will receive an error message. You must reassign these before completing the steps noted above.
