DEPARTMENT OF PUBLIC UTILITIES

NOTICE OF FILING AND REQUEST FOR COMMENTS

D.P.U. 26-57

April 21, 2026

Joint Petition of NSTAR Electric Company d/b/a Eversource Energy; Massachusetts Electric Company and Nantucket Electric Company, each d/b/a National Grid; and Fitchburg Gas and Electric Light Company d/b/a Unitil for approval by the Department of Public Utilities of proposed revisions to the Model Standards for Interconnection of Distributed Generation Tariff that incorporate a Common System Modification Fee, pursuant to Department Inquiry, D.P.U. 25-48.

On March 25, 2025, the Interconnection Implementation Review Group (“IIRG”) submitted to the Department of Public Utilities (“Department”) proposed revisions to the Model Standards for Interconnection of Distributed Generation Tariff (“DG Interconnection Tariff”). On May 27, 2025, the Department opened an investigation into the IIRG Filing. Department Investigation Into Interconnection Implementation Review Group’s Proposed Revisions to the Model Standards for Interconnection of Distributed Generation Tariff, D.P.U. 25-48, Vote and Order Opening Investigation (2025).

The IIRG is a Department-sanctioned working group established under Distributed Generation Interconnection, D.P.U. 19-55-F (2023). The IIRG provides a forum to identify and discuss issues related to DG interconnection and to ensure continued review of DG interconnection standards and procedures. Information on the IIRG can be found at its website: <https://gridforce.my.site.com/s/article/Interconnection-Implementation-Review-Group>.

The IIRG members collaborated for a year and half leading up to the March 25, 2025 filing to identify proposed revisions to the DG Interconnection Tariff, specifically to Simplified and Expedited interconnection process requirements. These processes set out operational actions necessary for a DG facility to connect with an electric distribution company’s (“Distribution Company”)¹ electric power system (“EPS”). The revisions proposed in the IIRG filing in

D.P.U. 25-48 are intended to, among other things, understand and explore ways to address system modification costs for projects under the Simplified Process.

On March 27, 2026, the Distribution Companies filed a joint proposal to further revise the Model DG Interconnection Tariff to incorporate a Common System Modification Fee (“CSM Fee”). The joint CSM Fee proposal was developed with the IIRG’s Interconnection Fees Subgroup and on March 26, 2026, the IIRG voted unanimously to support the joint CSM Fee proposal. The Department has docketed this matter as D.P.U. 26-57.

If approved as proposed, this non-refundable CSM Fee will apply to all DG Simplified Process applicants seeking to interconnect to a Distribution Company’s EPS. The proposed cost-sharing approach is intended to reduce the financial burden on individual Simplified Process Interconnecting Customers when EPS modifications are necessary. As proposed, the CSM Fee will cover distribution work and equipment directly required for Simplified Process facilities to interconnect to the Distribution Company’s EPS, up to each Distribution Company’s CSM Benefit Threshold. The CSM Benefit Threshold is the maximum CSM benefit allowed per eligible Simplified Process Application. The proposed CSM Fees and Benefit Thresholds are as follows:

Distribution Company	CSM Fee	CSM Benefit Threshold
National Grid	\$225	\$10,000
NSTAR Electric	\$225	\$10,000
Unitil	\$225	\$1,450

The CSM Fee proposal is intended to be self-sustaining, with collections matching expenditures for equipment and work necessary for related upgrades to a Distribution Company’s EPS. The Distribution Companies also request permission to recover: (1) the difference of any under-collection of CSM Fees through base distribution rates, subject to approval by the Department and (2) the costs of implementation of the CSM Fee Program. The estimated implementation costs and method to recover those costs are to be determined.

Grid (“National Grid”). Each Distribution Company’s currently effective DG Interconnection Tariff is: Unitil, M.D.P.U. No. 474; NSTAR Electric, M.D.P.U. No. 55C; and National Grid, M.D.P.U No. 1620.
