Implementation Council Participation in Procurement

- Implementation Council supported the development of consumer scenarios that were incorporated into the RFR for One Care Plans
- MassHealth had invited consumer members of the Implementation Council to review the programmatic responses to the RFR for One Care Plans, and to share feedback – including strengths and weaknesses – with the EOHHS review team. The diverse perspectives from consumer reviewers was incredibly important to the review process.
- We want to recognize the significant time and work invested by Council members who participated in reviewing responses
- We also appreciate the work of the UMMS team that supported the consumer reviewers

Thank you!!!
