MassHealth
Independent Nurses Bulletin 1
January 2021

TO: Independent Nurse Providers Participating in MassHealth

FROM: Daniel Tsai, Assistant Secretary for MassHealth 

RE: **COVID-19 Related Administrative Flexibilities for Independent Nurses including Telehealth**

Introduction

In light of the March 10, 2020 Declaration of State of Emergency within the Commonwealth due to the 2019 novel Coronavirus (COVID-19) outbreak, MassHealth authorized certain COVID-19 related administrative flexibilities to long term services and supports (LTSS) providers. These flexibilities were communicated in a guidance document titled [MassHealth LTSS Provider Information: Updates Related to the Coronavirus Disease 2019 \(COVID-19\)](#), (hereinafter referred to as the 'MassHealth COVID-19 LTSS Flexibilities document').

The purpose of this bulletin is to update MassHealth's COVID-19 related flexibilities for MassHealth Independent nurses providing Continuous Skilled Nursing (CSN) services, including telehealth, and with the goal of helping to ensure members retain access to appropriate CSN services, promote social distancing, and mitigate the spread of COVID-19. The guidance set forth in this bulletin replaces all previously issued guidance for MassHealth Independent Nurse (IN) providers described in the MassHealth COVID-19 LTSS Flexibilities document.

This bulletin applies to members receiving CSN services on a fee-for-service basis, including members enrolled in the Primary Care Clinician (PCC) plan who are receiving MassHealth covered CSN services.

This bulletin describes COVID-19 related flexibilities for MassHealth Independent Nurses for the following effective periods.

- a. Flexibilities effective through March 31, 2021; and
- b. Flexibilities effective until the end of the federal emergency period.

Flexibilities Effective Through March 31, 2021

Temporary Change to Overtime Requirements

Through March 31, 2021, notwithstanding the requirement at 130 CMR 414.416(A)(3), INs do not need to contact a minimum of two other CSN providers in attempts to find other nurses to fill CSN hours that exceed 40 hours for a complex care member. If an IN provides services that are otherwise in accordance with 130 CMR 414.416, MassHealth will provide an authorization for the overtime rate for up to 90 consecutive days, notwithstanding any durational limitations in the regulation, following review and approval by MassHealth.

Timeframe to Acquire Signatures on Plans of Care

Through March 31, 2021, IN providers have additional time to obtain a member's signed plan of care. The IN may obtain the signed plan of care either before the first claims submission or within 60 days from the first claims submission, as long as the requirements outlined in 130 CMR 414.420 are met. This effectively extends the physician signature or allowable non-physician signature timeframe from 30 days to 60 days, as temporarily allowed by MassHealth.

Temporary Change to Limit of Hours

Through March 31, 2021, MassHealth is temporarily expanding the maximum limit of hours described in 130 CMR 414.409(C) from 60 hours provided in a consecutive seven-day period to 80 hours in a consecutive seven-day period; and from 12 hours in a consecutive 24-hour period to 16 hours in a consecutive 24-hour period. All requests to temporarily increase the frequency of continuous skilled nursing service delivery must be authorized by MassHealth or its designee.

Availability of Caregivers

Through March 31, 2021, if, as determined by the IN, a member's family member or primary caregiver who is providing care to the member pursuant to 130 CMR 403.414(I), is unable to continue to provide care due to COVID-19, the independent nurse may request from MassHealth additional CSN services, as applicable, to ensure the member's medical needs continue to be met. These additional CSN services may be authorized for periods of up to 90 days.

Provision of CSN Services via Telehealth

IN Telehealth Guidance

MassHealth independent nurses may deliver consultative CSN services that are clinically appropriate, medically necessary MassHealth-covered CSN services to MassHealth members via telehealth (including telephone and live video), in accordance with the standards in this bulletin and notwithstanding any regulation to the contrary, including physical presence requirements in 130 CMR 414.000: *Independent Nurse* and must meet all requirements under the MassHealth Medical Necessity Guidelines.

MassHealth is not imposing specific requirements for technologies used to deliver services via telehealth and will allow reimbursement for consultative MassHealth CSN services delivered through telehealth, so long as such services are medically necessary and clinically appropriate and comply with the guidelines in this bulletin. Providers are encouraged to use appropriate technologies to communicate with individuals and should, to the extent feasible, ensure the same rights to confidentiality and security as provided in face-to-face services. Providers must inform members of any relevant privacy considerations.

CSN Telehealth visits may be used for CSN services that

- a. are consultative services;
- b. are not hands on care; and,
- c. the member has provided consent for.

**MassHealth

Page 3 of 4**

CSN Telehealth visits may not be used for

- a. any non-consultative CSN service;
- b. any hands-on care; and,
- c. services the member has not provided consent for.

Member Consent

Providers must obtain verbal consent from a member, and the member's caregiver/legal guardian if applicable, prior to the initiation of consultative CSN services via telehealth. Providers must also document the consent in the member's record.

In obtaining the member's consent, MassHealth home health agencies must provide the member with the following information about telehealth:

A statement explaining

- a. what a telehealth visit entails;
- b. what is expected from the member as well as the IN; and
- c. any relevant privacy considerations; and that the member may revoke their consent for telehealth services at any time.

Billing Instructions and Payment Rates for CSN Services Delivered via Telehealth

Rates of payment for continuous CSN delivered via telehealth will be the same as rates of payment for CSN services delivered via traditional (e.g., in-person) methods set forth in [101 CMR 361.00: Rates for Continuous Skilled Nursing Services](#).

INs should not include the modifier GT when submitting claims for CSN services delivered through telehealth.

Documentation of CSN Services Delivered via Telehealth Services and Encounter Requirements

All documentation requirements of [130 CMR 414.000: Independent Nurse](#) apply when services are delivered via telehealth and the documentation must also include the following:

- a. Indication in the visit note that the service was provided via telehealth;
- b. Description in the visit note of the rationale for service via telehealth.

Flexibilities Effective Until the End of the Federal Emergency Period

Providers Qualified to Order Services and Establish a Plan of Care

Through the end of the federally declared public health emergency for COVID-19, CSN services provided by an IN may be directed by a nurse practitioner, clinical nurse specialist, and/or physician assistant. Pursuant to this change in addition to physicians, a nurse practitioner, clinical nurse specialist, or a physician assistant may: (1) order CSN services; (2) establish and periodically review a member's plan of care for CSN services (e.g., sign the plan of care), and (3) certify and re-certify the members plan of care.
