Dear Ian,

Thank you for your service to the commonwealth. I support the opt-in standard for Massachusetts' building code. We see in Massachusetts heat waves and drought conditions. And like you, I would like to contribute to a more livable world for our children and grandchildren. I am a member of LexCAN. I am excited by the electrification requirements this code would enact, plus, renovations to existing buildings for electrification. I especially think that it's important to retrofit as many buildings as possible, as soon as possible. It would also be great if new housing was required to electrify, especially the homes over \$1,000,000.

Sincerely,

Rich Goldhammer
