Hemp Planting Form

Directions

Complete the following form and submit to the MDAR Hemp Program no later than ten (10) days after planting. *You may NOT plant hemp in any unlicensed areas. To add a growing area to your license, you must submit a revision to the program for prior approval.*

NOTES:

- 1) All varieties must be approved by the MDAR Hemp Program **BEFORE** planting. Please ensure that documentation demonstrating that the varieties to be planted have less than 0.3% total THC has been submitted to the Program for approval.
- 2) All licensed areas must also be reported directly to the Farm Service Agency (FSA). Even small plots of land used for hemp production must be identified to FSA. To file a report with the FSA, you should contact your local FSA county office, and they will guide you through the process. A list of local FSA offices is available at <https://www.farmers.gov/service-center-locator>. For more information, please visit: <https://www.farmers.gov/manage/hemp>.
- 3) Each individual hemp variety by planting location is considered a "Lot." Each Lot must be tested individually by the MA Hemp Program at harvest, and Lots may not be co-mingled or combined until a Hemp Certificate is issued.
- 4) Licensed sites NOT used for hemp production should be reported to the Program before October 1

Please email completed forms to: MAHemp@mass.gov

Please type or print clearly (incomplete or illegible forms will be returned).

License Holder Information

Name of License Holder:

License Number:

Primary Contact Name (if different):

Planting at different licensed sites must be reported on separate Planting Forms.

Planting Site Information

Site Name:

Physical Address:

City:

State:

Zip Code:

FSA Number:

Check here if hemp will not be planted at this site:

I did not plant hemp at this site

2022 Hemp Planting Form

List each Lot individually by variety and Grow Area (field/greenhouse, etc.) Attach additional sheets as necessary. Please report the expected harvest size and location for each Lot. Do NOT report the number of plants or seeds used as starts. Example: if you start 100 seeds in a greenhouse but intend to harvest a full crop from a field, please report the location from where these will be harvested (i.e. Field X), and the total expected amount to be harvested in area (i.e. 1.5 acres).

Planting Information
