Thank you for your consideration and allowing us to contribute to this important process. IOMA members are independent motor fuel distributors marketing in one or more of the New England states. Most IOMA members are headquartered in Massachusetts, hiring employees from local communities, and investing capital in the Commonwealth. A typical IOMA member would invest capital in marketing infrastructure including new investment, rationalization projects, and rehabilitations. IOMA members are responsible for over 7,000 employees in the Commonwealth.

In fact, IOMA recently merged with the New England Convenience Store Association ("NECSA"), to become the New England Convenience Store & Energy Marketers Association or ("NECSEMA"). Please contact my office should you have any questions.

Sincerely,

Peter Romano
