

COMMISSION MEETING

January 16, 2025

 MassGIC

 Group Insurance Commission

 MA Group Insurance Commission

Agenda

- **I. Minutes, December 19, 2024 (VOTE)** 8:30-8:35
Valerie Sullivan, Chair
Andrew Stern, General Counsel
- **II. Executive Director's Report (INFORM)** 8:35-8:45
Matthew Veno, Executive Director
Members of Senior Staff
- **III. FY2024 Stewardship Meeting Summary (INFORM)** 8:45 -9:00
Cameron McBean, Director of Vendor Management
- **IV. FY2026 Plan Design (INFORM)** 9:00-10:00
Cameron McBean, Director of Vendor Management
Matthew Veno, Executive Director
- **V. Other Business/Adjournment** 10:00-10:05
Valerie Sullivan, Chair
Matthew Veno, Executive Director

APPROVAL OF MINUTES (VOTE)

Valerie Sullivan Chair &
Andrew Stern General Counsel

Motion

That the Commission hereby approves the minutes of its meeting held on December 19, 2024 as presented

- Valerie Sullivan, Chair
- Bobbi Kaplan, Vice-Chair
- Dana Sullivan (A&F Designee)
- Rebecca Butler (Designee for DOI)
- Elizabeth Chabot
- Edward Tobey Choate
- Tamara Davis
- Jane Edmonds
- Joseph Gentile
- Gerzino Guirand
- Patricia Jennings
- Eileen P. McAnneny
- Melissa Murphy-Rodrigues
- Jason Silva
- Anna Sinaiko
- Timothy D. Sullivan
- Catherine West

EXECUTIVE DIRECTOR'S REPORT (INFORM)

Matthew Veno Executive Director &
Members of Senior Staff

FY2024 Stewardship Meeting Summary (Inform)

Cameron McBean, Director of Vendor
Management

FY2024 Stewardship Summary

1

There was high variation in health plan fiscal performance.

- **HNE** had highest Allowed PMPM (Per Member Per Month) trend at **12.6%**
- **Point32** had PMPM trend of **9.5%** (first year of HPHC-only for commercial plans)
- **MGB - 4%**
- **Wellpoint - 2.9%**

2

Pharmacy trends were also mixed

- CVS **Caremark** had FY24 trend (compared to Express Scripts in FY23) of **13.4%**
- CVS **Silverscript** had overall trend (net of rebates) of **-4.5%** in six-month reporting period (calendar-year based)

FY2024 Stewardship Summary

Observations:

- 1. HNE** had unusually high trend (historically had lower trend than other carriers)
 - Trend driven by higher acuity for inpatient and outpatient, and increase in HCC's (High-Cost Claimants over \$100K)
- 2. Point32** trend also driven by increases to Inpatient, Behavioral Health, and HCC's, despite decrease in membership
- 3. MGB** noted that it saw an increase in membership, including higher risk scores among new members
 - This increase coincided with MGBHP's transition from a regional network plan to a broad network plan and the sunsetting of Tufts commercial plans.
- 4. Prescription plan** trends illustrate the impact of GLP-1's (covered under Commercial/Caremark plan for all indications, while restricted to specific conditions under Medicare)

FY2026 Plan Design (Inform)

Cameron McBean, Director of Vendor
Management

Matthew Veno, Executive Director

FY26 Plan Design

Proposed plan design changes include:

- Incorporate Hinge Health app (for musculoskeletal conditions) into coverage via partnership with CVS.
- Harmonize and enhance fertility benefits across plans (minimal financial impact)
 - Cover IUI without demonstrated infertility
 - IVF & Reciprocal IVF
 - Cryopreservation
- Remove Nutritional Counseling limits (recommended for mental health parity)

FY26 Plan Design

Legislative Mandates:

In December 2024, the legislature passed An Act Relative to Pharmaceutical Access, Costs and Transparency (“PACT Act”), which will have impacts on the GIC:

- Requires enhanced coverage for diabetes, asthma, and two most prevalent heart conditions.
 - Includes one generic (insulin for diabetes) to be covered with no (\$0) member cost-sharing, and that there be one brand name that costs no more than \$25/month.
- Carriers must implement a continuity of care program of 30-day coverage for new members who currently use a medication not otherwise available (excluded from formulary).

FY26 Plan Design

Other Legislative Mandates:

- FY25 Budget - increased Basic Life/AD&D benefit to \$10K and expanded fertility coverage
- HB4918 - mandates coverage of breast MRI and 3D mammography for screenings
- HB4999 - coverage for human donor milk and postpartum depression screenings and home visiting services (e.g., midwives)
- HB5143 - changes to pain management mandates, including removing utilization controls like step therapy for non-opioid pain medications, coverage for opioid agonists without cost share, and coverage for licensed recovery coaches
- SB2970 - mandates coverage for ABA, speech, and occupational/physical therapies for those with Down Syndrome

FY26 PLAN DESIGN CONSIDERATIONS

Prescription Drugs & Provider Prices

GIC

FY26 Plan Design

Considerations Regarding Prescription Drugs

- Exclude coverage of GLP-1s (not recommended)
- Shift costs to members via increased cost sharing (not recommended)

Other Potential Approaches for Future Discussion

- Secure more favorable pricing via direct negotiations
- Implement access criteria that are more stringent than FDA approval, which other states have adopted (i.e. participation in a robust weight management program, digital therapeutics)
- Place GLP-1s in a higher copay tier
- Evaluate coverage for conditions newly approved by the FDA

FY26 Plan Design

Considerations Regarding Provider Prices

- Expand outpatient site-of-service copay differentials to other services (not recommended at this time)
- Shift costs to members via increased cost sharing (not recommended)

Other Potential Solutions for Future Discussion (FY27 and Beyond)

- Focus on carriers with higher performance, and a demonstrated ability to provide high value to the GIC
- Broadly eliminate, or sharply constrain, access to high-cost provider systems, via changes in product types in the GIC's portfolio
- Replace or reshape the GIC's reliance on carriers to negotiate provider rates, and directly or indirectly intervene to ensure fair, sustainable unit prices

OTHER BUSINESS / ADJOURNMENT

Valerie Sullivan, Chair
& Matthew Veno, Executive Director

2025 Group Insurance Commission Meetings & Schedule

January 16	February 6	February 27	April 17	May 15
June 18	September 18	October 16	November 20	December 18

Unless otherwise announced in the public notice, all meetings take place from 8:30 am - 10:30 am on the 3rd Thursday of the month. Meeting notices and materials including the agenda and presentation are available at mass.gov/gic under Upcoming Events prior to the meeting and under Recent Events after the meeting.

Please note:

- Until further notice, Commissioners will attend meetings remotely via a video-conferencing platform provided by GIC.
- Anyone with Internet access can view the livestream via the MA Group Insurance Commission channel on YouTube. The meeting is recorded, so it can be replayed at any time.

Note: Topics and meeting dates are subject to change

Commission Members

Valerie Sullivan, Public Member, Chair

Bobbi Kaplan, NAGE, Vice-Chair

Michael Caljouw, Commissioner of Insurance

Matthew Gorzkowicz, Secretary of Administration & Finance

Elizabeth Chabot, NAGE

Patricia Jennings, Public Member

Edward Tobey Choate, Public Member

Eileen P. McAnneny, Public Member

Tamara P. Davis, Public Member

Melissa Murphy-Rodrigues, Mass Municipal Association

Jane Edmonds, Retiree Member

Jason Silva, Mass Municipal Association

Joseph Gentile, Public Safety Member

Anna Sinaiko, Health Economist

Gerzino Guirand, Council 93, AFSCME, AFL-CIO

Timothy D. Sullivan, Massachusetts Teachers Association

Catherine West, Public Member

GIC Leadership Team

Matthew A. Veno, Executive Director

Erika Scibelli, Deputy Executive Director

Emily Williams, Chief of Staff

James Rust, Chief Financial Officer

Paul Murphy, Director of Operations

Andrew Stern, General Counsel

Stephanie Sutliff, Chief Information Officer

Brock Veidenheimer, Director of Human Resources

GIC Goals

1

Provide access to high quality, affordable benefit options for employees, retirees and dependents

2

Limit the financial liability to the state and others (of fulfilling benefit obligations) to sustainable growth rates

3

Use the GIC's leverage to innovate and otherwise favorably influence the Massachusetts healthcare market

4

Evolve business and operational environment of the GIC to better meet business demands and security standards

Appendix

Expected FY26 Budget Increase - Context Setting

Why are we here today?

- Based on the current medical and pharmacy carriers and plan design offerings, preliminary Fiscal Year 2026 (FY26) full cost premiums were developed for each of the GIC's products (Non-Medicare and Medicare)
- The purpose of this discussion is to present FY26 Medical and Pharmacy preliminary pricing projections prior to incorporating strategic plan design changes
- A premium reflects the total sum of money that the product is expected to cost in claims and fees (for medical and pharmacy), including the Commonwealth, municipalities and member portion; typically displayed as a monthly amount

What are premiums?

- Out-of-pocket costs at point of service are not included in premiums (e.g., office visit copays)
- Premiums reflect the full cost – members only pay a portion of the full cost premium

How were the premiums developed?

- Self-insured (i.e., ASO): WTW actuaries calculate FY26 premiums utilizing claims data, member data, and trend assumptions developed by the carriers; the individual and family premiums reflect the claims experience and demographics for each product offered (applies to Non-Medicare and Medicare Supplement plans for the GIC)
- Fully-insured: The carriers develop and determine the fully insured FY26 premiums for the GIC (applies to Medicare Advantage medical portion only)

Expected FY26 Budget Increase - Context Setting

Unique market dynamics are influencing health care costs, causing a significant short-term increase and uncertainty for long-term impact

Context: Federal Employee Benefit Plan (FEBP) rate increases average 11.2% for calendar year 2025¹

¹ Friedman, D [Federal News Network](#) September 2024

-  Applicable to Commercial + Medicare
-  Applicable to Medicare only

Expected FY26 Budget Increase - Context Setting

General Inflation

While recent reports indicate inflation rates are somewhat stabilizing, CPI is still higher now than before the pandemic

Incremental Health Care Inflation

Healthcare trend continues to outpace CPI, driven by contentious contract renegotiations between carriers and providers, industry consolidation, and continued clinical labor shortages, among other factors

Expectations on organizations' healthcare costs for 2024

Source: WTW 2024 Best Practices in Healthcare Survey

Expected FY26 Budget Increase - Context Setting

Utilization and Service Mix

As more members use high-cost medical services and drugs, costs increase. The below trends were noted in the recent stewardship meetings and are common across the market.

Inpatient Services

Increased utilization of inpatient services and higher unit costs, shift in service mix to higher acuity surgeries

Outpatient Services

Higher unit cost of outpatient surgeries and tests/screening, driven by musculoskeletal and cardiovascular care

GLP-1 Drugs

Sharp increase in utilization of these very high-cost drugs

Medical Pharmacy

Increased use of high-cost injectable drugs to treat autoimmune diseases like MS and Crohn's/Ulcerative Colitis, and infusion drugs to treat cancer

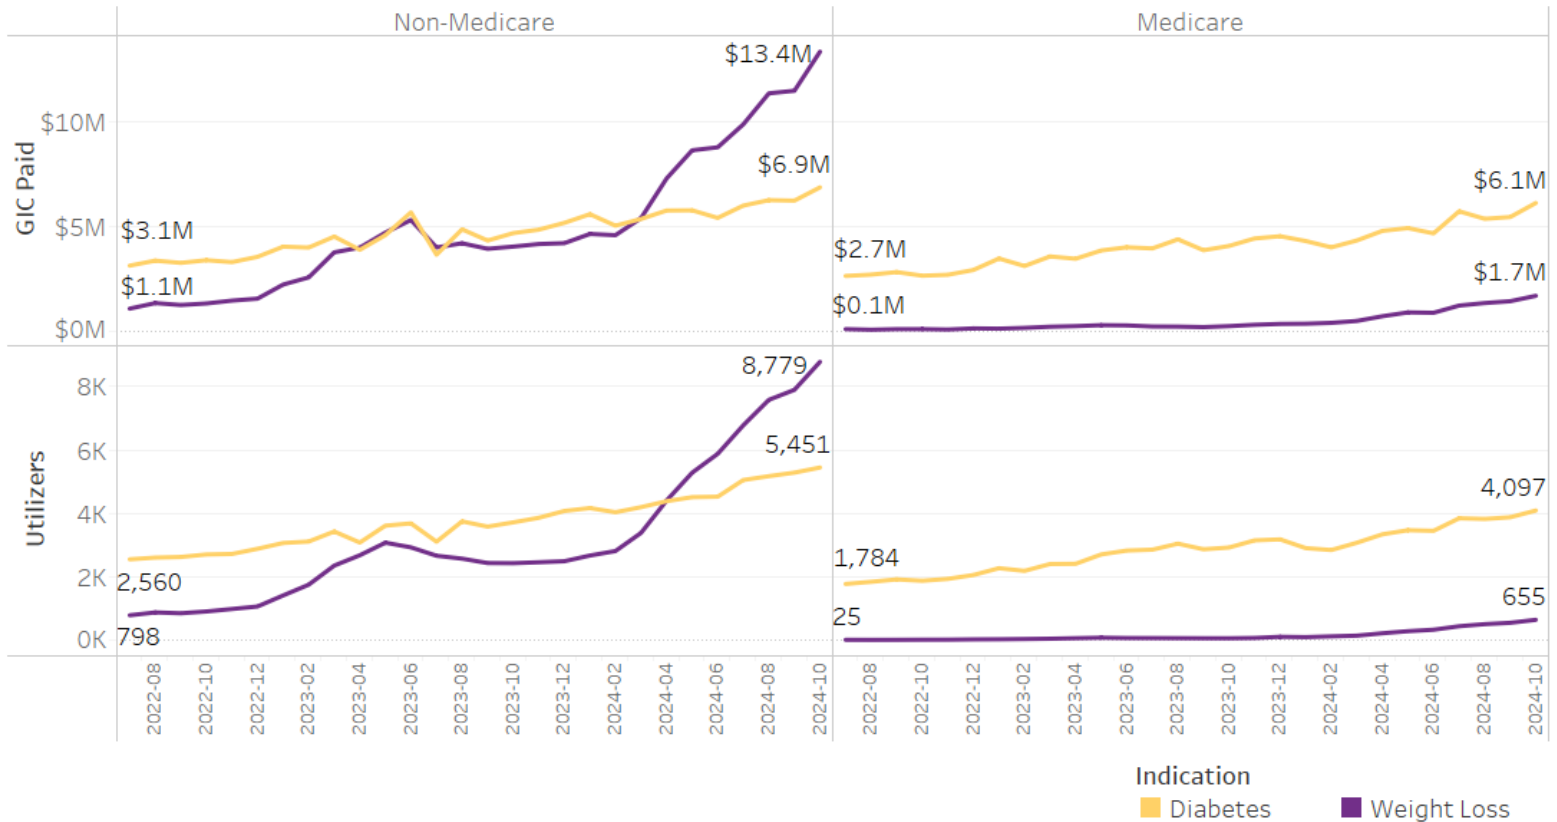

Substance Use Disorder Services

Increased utilization of SUD services and higher unit costs, particularly for alcohol dependence

Expected FY26 Budget Increase - Context Setting

GLP-1 Drugs

GIC GLP-1 utilization and cost has grown significantly for both diabetes and weight loss. This growth is expected to continue; the cost and increased utilization of these drugs make up a significant portion of projected trend.

Expected FY26 Budget Increase - Context Setting

GLP-1 Drugs

 Does your organization cover GLP-1 medications for obesity?

Note: Percentages may not sum up to 100% due to rounding.
Source: WTW 2024 Best Practices in Healthcare Survey.

Expected FY26 Budget Increase - Context Setting

GLP-1 Drugs

GLP-1 medications have numerous benefits and clinical value. These drugs can prevent illness and deaths but are unlikely to lead to lower medical costs.

Diabetes	Obesity
<p>Well-proven benefits</p> <ul style="list-style-type: none"> ▪ Decreased progression to renal failure ▪ Decreased major adverse cardiovascular events ▪ Decreased fatty liver disease ▪ Decreased all cause mortality among those with kidney disease and diabetes 	<p>Well-proven benefits</p> <ul style="list-style-type: none"> ▪ Decreased progression to diabetes ▪ Decreased major adverse cardiovascular events (MACE) and all cause mortality among those with history of cardiovascular events ▪ Sleep apnea

Potential GLP-1 benefits
<ul style="list-style-type: none"> ▪ Decreased compulsive behavior (addiction, gambling) ▪ Decreased obesity-related cancer (breast, colon, endometrial) ▪ Decrease in diagnosis of Alzheimer’s dementia ▪ Improved mental health

Preliminary FY26 Budget Increase

- “Preliminary” = Current plan options, programs, plan design, funding mechanism; no anticipated migration or material changes in member behavior
- 10.5% projected aggregate increase prior to plan changes and final claim adjustments

Next Steps:

- Finalize medical and pharmacy trend assumptions provided by vendor partners
- Evaluate and vote on plan design changes, including cost impacts
- Adjust the budget rates increase accordingly and develop premium rates by plan
