Job Aid for Installing Silverlight

РС

- Before going to the License Center website, navigate to <u>http://www.microsoft.com/silverlight/</u> in order to install Microsoft Silverlight 5.
- 2. Click on the Download Now button-

creating engaging, interactive user experiences for Web and mobile applications. Silverlight is a free plug-in, powered by the .NET framework and compatible with multiple browsers, devices and operating systems, bringing a new level of interactivity wherever the Web works.

3. This will launch a download utility on the bottom of your browser window. To install Silverlight, select "Run"—

4. You will now see the Silverlight installation program. Select "Install now"—

5. If you have already installed Silverlight, the next page will should you the version that you have installed—

otherwise, you will see the following—
