Citizenship Affirmation	I am a U.S. Citizen
Residency Affirmation	I am a resident of the Commonwealth of Massachusetts
Statement of Intent	I intend to comply with and advance the policy established by this Act.
Statement of Interest	<p>I am concerned by the erosion of the power of average citizens at the expense of moneyed interests. Money is not equal to free speech because each of us does not have equal access to money, while each of us has a voice. We now have a situation where legislation and policies are created only to serve moneyed and corporate interests while the will of the people is ignored. Politicians now spend most of their time raising money instead of governing. We are supposed to be a country founded on principles of justice, fairness, and the common wealth, but money has perverted everything. Most importantly it has eroded the connection between the citizen and their country, causing people to become apathetic and uninvolved, because they feel that they are powerless and irrelevant. If we continue in this direction this great experiment in democracy will fail. Now is a critical time. I believe each of us needs to be actively involved in our communities and our government. This initiative creates an opportunity for opinions that have been silenced to be heard. I wish to be involved because I believe that this is the most important issue facing us today and, for the sake of my family and community, I want to work for a better future.</p>
