Honorable Chairs and Ranking Minority Members of the Committees on Ways and Means:

Pursuant to Section 6 of Chapter 14 of the General Laws¹, the Department of Revenue (DOR) hereby submits its mid-month tax revenue report for the month of July 2019, the first month of fiscal year 2020. The attached table shows July 2019 month-to-date tax revenue collections through July 15, 2019, along with changes from the equivalent period in July 2018.

Revenue collections are uneven and weighted toward month-end, and the brief period covered in the mid-month does not provide sufficient data for comparison to prior years. **Therefore, the Department urges that mid-month figures should not be used to assess trends or project future revenues.**

Context for July revenues

July is historically one of the smaller months for revenue collection, because neither individual nor business taxpayers make significant estimated payments during the month. As a result, roughly 6.7% of annual revenue has been received on average during July.

Highlights

- **Total Tax** collections for the month-to-date period were \$740 million, up \$26 million or 3.6% versus the same period in July 2018.
- **Income Taxes** totaled \$548 million, up \$20 million or 3.8% versus the same period in July 2018.
- **Sales & Use Tax** collections were \$62 million, down \$8 million or 11.3% versus the same period in July 2018.
- **Corporate & Business Taxes** were \$84 million, up \$9 million or 11.6% versus the same period in July 2018.
- **Other Taxes** totaled \$47 million, up \$5 million or 11.4% versus the same period in July 2018.

Detail

Total Income Tax of \$548 million for mid-month July comprises the following:

- **Withholding** of \$513 million, up \$30 million from mid-month July 2018.
- **Estimated Payments** of \$16 million, down \$3 million from mid-month July 2018.
- **Returns/Bills** of \$20 million, down \$9 million from mid-month July 2018.
- **Refunds** of \$1 million, down \$2 million from mid-month July 2018. Because refunds are an outflow, this represents a positive variance from the prior year.

Sales & Use Tax collections of \$62 million for the July month-to-date period are \$8 million or 11.3% less than the equivalent period last year. Only a small proportion of expected Regular Sales and Meals tax remittances, subcategories of Sales & Use Tax, are received by the mid-month date; the bulk of these payments are expected on or after the 20th of the month.

- \$40 million in Regular Sales Tax collections, down \$3 million from mid-month July 2018.
- \$12 million in Meals Tax revenues, down \$1 million from mid-month July 2018.
- \$9 million in Motor Vehicle Sales Tax revenues, down \$4 million from mid-month July 2018.

Corporate & Business tax revenues were \$84 million, up \$9 million from mid-month July 2018.

All Other includes a number of tax categories including motor fuels, cigarettes, estate taxes, and deeds. All other revenues totaled \$47 million, which is \$5 million more than the mid-month July 2018 figure.

Because collections are weighted to the end of the month, we do not use the mid-month figures to project full-month revenue. Comparisons to prior-year periods are unreliable because of normal fluctuations and calendar differences in the short 15-day window of incremental data.

If you have any questions concerning this report, please contact either me (617-626-2201) or Kazim P. Ozyurt, Director of the Office of Tax Policy Analysis (617-626-2100).

Sincerely,

Christopher C. Harding
Commissioner

It would not be advisable to use this data to predict trends.

At the time of the mid-month estimate, the available tax collection data is too early to provide a reliable estimate of full-month results.
