Hi Julia, I nominate myself for this role.

In seeking appointment to the IEP Stakeholder Working Group, I hope to leverage Acadia Center's extensive experience in working on Integrated Energy Planning into action in this group.

Acadia Center has long been a pillar of utility planning reform in the region and helped create and has served on the Executive Committee and Equity Working Group of the Energy Efficiency Advisory Council and GMAC. The perspective gained from my organization's decade plus of service brings significant assets. In addition to developing and drafting the initial legislation which created the GMAC, Acadia Center has long been a thought leader in integrated energy planning. We have also published multiple reports on related matters, including UtilityVision (which outlines the specific steps needed to create a new energy system that both meets our needs and supports a fair, healthy economy and environment) and RESPECT (which proposes key reforms to utility planning processes to ensure that utility investments and decision-making are aligned with state goals to address climate pollution, further environmental justice, and lower consumer costs. I believe I have been an advocate not only for the climate, but also for consumers and environmental justice communities. I look forward to continuing that work.

Kyle Murray (he/him/his)  
Director, State Program Implementation and Massachusetts Program Director
