Getting Started

Considerations

The Landlord Portal has been designed for landlords and property managers to register in the system and submit landlord application(s) for their tenant(s). In order for a tenant to receive RAFT paid to a landlord or property manager, the landlord or property manager must submit a landlord application that corresponds to the tenant application.

To access full Portal functionality, registration is required. Should registration not be possible, basic functionality is accessible as a Guest landlord user. This guide provides instructions for various types of landlords and property managers to use the Portal to submit applications, as well as instructions for Guest landlords to submit applications.

Here are the key differences between Registered and Guest Landlords. In short, if you foresee the need to submit multiple applications, it is recommended that you register.

As a Registered Landlord:

You would enter your details and upload your documents into a secure profile once for repeat use across multiple tenant applications.

You would have 'save and resume' functionality for applications you start and need additional time to finish in a later session.

You may log into the Landlord Portal to check detailed application and payment status for all applications you have submitted.

Getting Started: Requirements

As a Guest Landlord:

You would enter your details, upload your documents, and complete an application for each tenant being applied for in a single session.

You would need to re-enter your details and re-upload your documents every time a new tenant applied.

You may query the system for summary application status.

Requirements

You are required to provide the following to complete your RAFT application:

- An email address (optional, but encouraged, for Guest landlords)
- Personal identification
- W-9 for property owner or authorized agent
- Authorization of agent, if applicable
- Proof of ownership for rental unit(s), if applicable

Terms

This guide will serve as a detailed walkthrough for submitting the landlord application for RAFT. Some common terms used throughout this guide are:

Applicant

The person who is requesting RAFT assistance, also known as the Tenant.

Advocate

Anyone who is assisting the Applicant in submitting the application, such as personnel at your Regional Administering Agency (RAA), a Community Based Organization (CBO), or a close friend/family member.

Tenant

The person who is requesting RAFT assistance, also known as the Applicant.

Account

The unique registration identification associated with the person filling out the application, which allows them to complete and track their progress.
