

EARTH DAY 2020

CELEBRATING LEADING BY EXAMPLE EFFORTS ACROSS THE COMMONWEALTH

In recognition of the 50th Anniversary of Earth Day, and with an eye toward the challenging times facing us today, the LBE team would like to take this opportunity to recognize and celebrate the long list of sustainability accomplishments at state agencies and campuses over the past decade. Please join us in acknowledging our collective efforts that are helping to green state operations while leading the way toward a cleaner Commonwealth and future. *This is the third in a series of daily communications we will be sending this Earth Week.*

GREEN BUILDING ACCOMPLISHMENTS

APPLAUDING THE STATE ENTITIES THAT HAVE CONSTRUCTED LEED CERTIFIED BUILDINGS:

- Division of Capital Asset Management & Maintenance (DCAMM): **38**
