### SCHEDULE B CONTAINERS, PACKING AND UNPACKING

1. Local packing rates will be applicable for packing services performed by Carrier. Flat rates will apply to the purchase of cartons or containers.
2. All such cartons and containers furnished and packed by Carrier (or its agent(s)) remain the property of the consignee. If the consignee or his or her agent requests unpacking (which includes disposal of such cartons and containers, if requested), separate rates apply in addition to packing rates.
3. In the event two or more cartons or containers must be joined because of size, shape or character of the item or items to be packed, each such carton or container that is so joined will be counted as one carton for rating purposes.
4. Used material pricing only applies when used materials are available for use.
5. Debris removal or unpacking after delivery date is applicable to local hourly rates.

## SCHEDULE D

### FUEL SURCHARGE

This schedule shall be used to determine Carrier's Fuel-Related Cost price Adjustment Factor (fuel surcharge) as applying to gasoline and/or diesel fuels.

(Applying between and among all points in the Commonwealth of Massachusetts\*)

\* May be filed by household goods and hazardous waste carriers.

On the first Monday of each calendar month, the "New England (PADD 1A)" price of diesel fuel and gasoline will be based on the price stated by the US Department of Energy (DOE), U.S. Energy Information Administration's (EIA) weekly survey of Gasoline and Diesel Fuel Updates. These indexed prices will be obtained by via the EIA Internet web site at [www.eia.gov](http://www.eia.gov) and shall be used to set the fuel surcharge as provided herein. If the first Monday of the calendar month is a Federal holiday, the price will be determined based on the stated EIA price available on the next subsequent business day (Tuesday).

Note 1: Subject to a minimum Fuel Cost Adjustment charge as set forth below when the EIA Gasoline and/or Diesel Fuel Updates, as applicable is at least \$2.50 per gallon.

Note 2: Notwithstanding any other provisions of the tariff, the Fuel Cost Adjustment Factor WILL APPLY to the total vehicle-miles-traveled for each Truck, starting when the Truck leaves Carrier's terminal and ending when said Truck returns to the terminal for each day the Carrier furnishes transportation or service to Shipper, applicable during the period that the Fuel Cost Adjustment Factor is in effect.

Note 3: The Fuel Cost Adjustment Factor WILL BE SHOWN SEPARATELY from the transportation/moving charges on documents for the purpose of identifying the amount as special fuel related revenue.

Note 4: The Carrier shall explain fully the fuel surcharge to be assessed prior to the move or during the estimate process.

Note 5: Where the EIA price per gallon exceeds \$8.09/gallon; for each \$0.19 increment increase, the applicable fuel surcharge shall be increased \$1.00/Truck for each mileage bracket below. Where Carrier's total mileage per Truck exceeds 145 miles, the applicable fuel surcharge shall be increased \$2.00 for each 10-mile increment over 145 miles.

Note 6: When the Fuel Cost Adjustment Factor is in effect, Carrier shall ascertain the indexed prices from the EIA only once each calendar month and such indexed price shall dictate the fuel surcharge set forth below until the next indexed price is ascertained by Carrier one month later.

Note 7: Fractions - Fractions will be dispensed with as follows: Where distance is the fraction 0.5 mile or above, Carrier rounds up to the next whole number; where distance is the fraction less than 0.5 mile, Carrier rounds down to the lower whole number.

FOR EXAMPLE: Origin Address to Destination Address on bill of lading shows 26.5 miles, the actual rate or charge will be calculated based on 27 miles.

[Carrier's matrix stating Carrier's Fuel Surcharge charges follows on subsequent pages.  
Remainder of page is blank.]
