MDAR List of Neonicotinoid Pesticides that Meet Current State Restricted Use Criteria

Please note that any pesticide product which contains a neonicotinoid and is labeled for outdoor non-agricultural and outdoor non-structural uses became a State Restricted Use Pesticide as of July 1, 2022. This includes products that are labeled for lawn and turf, trees and shrubs, ornamentals, and vegetable and flower gardens. The Department has compiled the below list of all products for your convenience. Given the vast number of products that have changed over, please note that this list is subject to change and should not be used as the only resource in determining if a product is restricted use. Should you find any products that you believe need to be added or removed from this list please contact the Department.
