

List of Tables

Table 1-1—South Station Site / Land Use	1-4
Table 1-2—SSX Project Alternatives Dismissed from Further Consideration	1-8
Table 1-3—Environmental Impacts, Joint/Private Development Alternatives.....	1-9
Table 1-4—Environmental Impacts, Layover Facility Site Alternatives	1-12
Table 1-5—Required State Agency Permits.....	1-15
Table 1-6—Required Federal Agency Permits	1-16
Table 1-7—Required Local Permits and Approvals.....	1-16
Table 2-1—Amtrak NEC Service On-Time Performance Trends	2-5
Table 2-2—MBTA Commuter Rail Service On-Time Performance Trends.....	2-5
Table 3-1—Track Configuration Tier 1 Screening, Constrained Rail Alternatives 1 through 4.....	3-10
Table 3-2—Alternative 2 – Joint/ Private Development Minimum Build Land Use Program	3-17
Table 3-3—Alternative 2 – Joint/ Private Development Minimum Build Building Sizes	3-17
Table 3-4—Alternative 3 – Joint/ Private Development Maximum Build Land Use Program.....	3-18
Table 3-5—Alternative 3 – Joint/ Private Development Maximum Build Building Sizes.....	3-18
Table 3-6—Proposed Transportation Improvements at the South Station Site.....	3-18
Table 3-7—Comparison of Joint/Private Development Alternatives at the South Station Site	3-19
Table 4-1— South Station Open Space Compliance	4-19
Table 4-2—Comparison of South Site Build Alternatives with Chapter 91 Requirements for Nonwater- Dependent Use Projects.....	4-21
Table 4-3—Consistency of SSX Project with Applicable Massachusetts Coastal Zone Management Policies.....	4-23
Table 4-4—Proposed South Station Site Land Cover, by SSX Project Alternative	4-28
Table 4-5—Proposed South Station Flow Rates and Runoff vs. No Build Conditions	4-28
Table 4-6—Summary of Potential Water Quality Impacts at SSX Project Sites.....	4-35
Table 4-7—Applicability of Potential Mitigation Measures at SSX Project Sitesa	4-37
Table 4-8—SSX Project Compliance with Massachusetts Stormwater Standards	4-39
Table 4-9—Proposed Estimated Wastewater Generation at South Station Site	4-43
Table 4-10—Proposed Estimated Wastewater Generation for Widett Circle.....	4-44
Table 4-11—Proposed Estimated Wastewater Generation for Beacon Park Yard.....	4-46
Table 4-12—Proposed Additional Estimated Wastewater Generation for Readville – Yard 2.....	4-48
Table 4-13—Existing Conditions Daily Combined South Station Boardings and Alightings, 2012	4-52
Table 4-14—Amtrak Service at South Station	4-53
Table 4-15—Existing Weekday MBTA Commuter Rail Boardings and Alightings at South Station	4-53
Table 4-16—Existing Weekday MBTA Bus Rapid Transit Boardings and Alightings at South Station ..	4-54
Table 4-17—Existing Weekday MBTA Local Bus Boardings and Alightings at South Station	4-54
Table 4-18—2025 Daily Combined South Station Boardings and Alightings.....	4-55

Table 4-19—2035 Daily Combined South Station Boardings and Alightings.....	4-56
Table 4-20—Existing Conditions South Station Area Intersections – Levels of Service.....	4-62
Table 4-21—South Station Area Intersections - Levels of Service, 2025/2035	4-66
Table 4-22—Project-related Pollutant Emissions at the South Station Site, Existing Conditions	4-69
Table 4-23—Project-related Pollutant Emissions at the Readville - Yard 2 Site, Existing Conditions ...	4-69
Table 4-24—Estimated Maximum 1- and 8-Hour CO Concentrations at the South Station Site Vicinity, Existing Conditions.....	4-70
Table 4-25—Estimated Maximum 1- and 8-Hour CO Concentrations at the Layover Facility Sites, Existing Conditions.....	4-71
Table 4-26—Summary of Project-related Criteria Pollutant Emissions at the South Station Site, Project Alternatives.....	4-71
Table 4-27—Summary of Project-related Criteria Pollutant Emissions at the Layover Facility Sites, Project Alternatives.....	4-72
Table 4-28—Estimated Maximum 1- and 8-Hour CO Concentrations at the South Station Site, Project Alternatives.....	4-73
Table 4-29—Estimated Maximum 1- and 8-Hour CO Concentrations at the Layover Facility Sites, Project Alternatives.....	4-74
Table 4-30—Summary of Estimated VOC and PM2.5 Emissions in the Vicinity of the South Station Site....	4-75
Table 4-31—Existing Measured Noise Levels at South Station Site and Vicinity.....	4-78
Table 4-32—Existing Measured Noise Levels at the Layover Facility Sites.....	4-79
Table 4-33—Calculated South Station Site Stationary Source GHG Emissions	4-83
Table 4-34—Alternative 3 Water- and Wastewater-Related GHG Emissions, South Station Site	4-83
Table 4-35—Project-Related CO2 Emissions at South Station by Alternative (tpy)	4-84
Table 4-36—Project-Related CO2 Emissions at Each Layover Facility Site by Alternative (tpy).....	4-85
Table 4-37—2035 Net Project- Related CO2 Emissions by Alternative.....	4-85
Table 4-38—2035 Potential GHG Emissions Summary.....	4-86
Table 4-39—Proposed Building Mitigation Conservation Measures.....	4-87
Table 4-40—Historic Resources within the South Station APE.....	4-91
Table 4-41—Historic Resources within the Readville – Yard 2 APE.....	4-93
Table 4-42—2009 South Station Study Area Demographic Data	4-109
Table 4-43—2035 South Station Study Area Demographic Projections.....	4-110
Table 4-44— South Station Study Area Demographic Changes, 2009 - 2035, Total and Percent.....	4-110
Table 4-45—Population Trends, Layover Facility Study Areas, 2000-2010	4-112
Table 4-46—Comparison of 2035 South Station Demographic Data	4-115
Table 4-47—Percentages by Population and Area of SSX Project Study Areas Meeting Environmental Justice Criteria.....	4-118
Table 4-48—Race and Ethnicity Characteristics in SSX Project Study Areas, 2010	4-118

Table 5-1—Consistency with MassDOT’s GreenDOT Implementation Plan.....	5-8
Table 5-2—Risks and Mitigation Strategies Associated with Hurricane Surge and Sea Level Rise	5-28
Table 8-1—MEPA Decisions on the South Station Site.....	8-2
Table 8-2—Required State Agency Actions	8-3
Table 8-3—Table of SSX Project Mitigation Commitments	8-12
Table 9-1—MEPA Certificate	9-233
Table 9-2—Public Officials/Agencies/Facilities.....	9-246
Table 9-3—Non-Governmental Organizations/Businesses/Individuals	9-262
