**Subject:** Re: Lower Falls Feasibility Study meeting presentation - REVISED

Dear Friends,

As you know, the Department of Conservation and Recreation (DCR) is conducting a feasibility study for a shared-use trail connection between the Route I-95 rail bridge ("Two Bridges") at the southeast corner of Leo J. Martin Golf Course, Newton, and the south side of the I-95 Overpass on Quinobequin Road, Newton, MA. The project has analyzed DCR-owned parklands, other open space, and roadway right of ways to evaluate alternative layouts toward safe and accessible bicycle and pedestrian accommodations through the Lower Falls area.

At a virtual public meeting held on Tuesday evening of this week, DCR presented and obtained public input on a proposed shared-use trail layout.

The presentation from the meeting is available for viewing at <https://www.mass.gov/dcr-public-meetings-information/events/past>.

We encourage the public to share feedback, with a deadline for receipt of comments by DCR of October 6, 2020. Comments may be submitted online at [www.mass.gov/dcr/public-comment](http://www.mass.gov/dcr/public-comment) or via email at [jennifer.norwood@mass.gov](mailto:jennifer.norwood@mass.gov). Please note that the content of comments you submit to DCR, along with your name, town, and zip code, will be posted on DCR's website. Providing additional contact information when commenting, notably email address, is optional, and will only be used for outreach on future updates on the subject project or property.

We appreciate your interest and input.

Sincerely,

Jennifer Norwood  
Massachusetts Department of Conservation and Recreation
