

MEETING NOTIFICATION

The Executive Office of Energy and Environmental Affairs invites you to join a public webinar:

MA 2050 Decarbonization Roadmap Question and Answer Session

Friday, January 15, 2021

12:00PM – 1:30PM

Via Webinar, https://us02web.zoom.us/webinar/register/WN_hOw_a0gOTwum9_lfUM2A

By phone: +1 929 205 6099, access code: 82053734476#

The goal of this meeting is to review the findings from the **MA 2050 Decarbonization Roadmap Report** ("2050 Roadmap" available here: www.mass.gov/2050Roadmap) and answer stakeholder questions about this report and associated technical reports. Together, these reports document the long-range, comprehensive analysis of cost effective and equitable pathways to reduce greenhouse gas emissions and achieve Net Zero in 2050.

EEA intends for this Question and Answer Session to result in a deeper understanding of the technical analysis included in the Roadmap, thereby facilitating the submission of public comments on the 2030 Clean Energy and Climate Plan Report ("2030 CECP" available here: www.mass.gov/2030CECP), which lays out policy guidance to reach climate goals by 2030. As a reminder, the Public Comment period for the 2030 CECP will run until 5:00 pm on February 22, 2021.

Please note: Questions submitted in advance will be prioritized during the Q&A. In order to ensure that your question is addressed during the session, please consider submitting your questions by 1/13 here: <https://www.mass.gov/forms/questions-on-the-2050-roadmap>

MEETING AGENDA

12:00 Welcome & logistics

12:05 Review of MA 2050 Decarbonization Roadmap

12:35 Q&A: EEA Staff welcome questions about the 2050 Roadmap. As time allows, EEA will take questions in this order

- Questions and comments submitted in advance.
- Written questions sent during the meeting, which will be consolidated if duplicative.

1:30 Adjourn

Note: All times are approximate
