Reportable Animal Diseases

The diseases listed below must be reported to the Massachusetts Department of Agricultural Resources (MDAR) Division of Animal Health when detected or suspected in animals that are in or have been recently been exported from Massachusetts. Practitioners should also report outbreaks of other diseases that seem to be progressing and which pose a threat to the animal population (ringworm, rhinopneumonitis, salmonella, etc.).

Reporting Priority:

1. Report immediately by telephone to State Veterinarian; confirm in writing or via email.
Diseases marked with an asterisk (*) must also be reported to the Massachusetts Department of Public Health Epidemiology Program at 617-983-6800 within 24 hours of suspicion or diagnosis.
2. Report by telephone or via email within 24 hours.
3. Report by telephone, in writing, or email within 72 hours.
