

MA RMV ATLAS – EVR Transaction Process Flows (DRAFT)

Last Updated: 2/21/19

1 EVR – Future Process

1.1 Transactions – ATLAS Tomorrow

High level web service process flow diagram

All web service calls in their elementary form will follow the *High level web service process flow diagram*. Since ATLAS will be hosting the web service, it is not possible for the RMV to send an unsolicited message to the Service Provider.

All transactions will follow this process flow diagram unless otherwise noted.

Legend

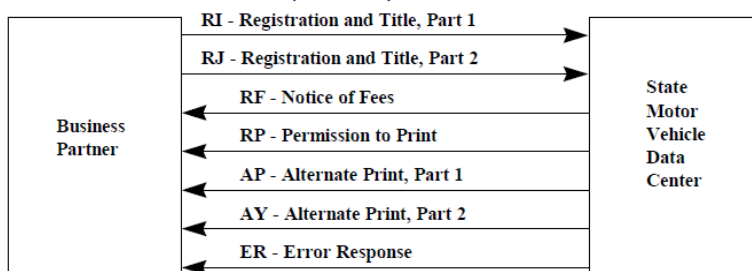

(C) – “Current EVR Transactions”

(F) – Proposed “Future EVR Transactions”

(S) – Supplementary EVR Messages
