

# Public Meeting Zoom Chat

18:07:01 From Jennifer Letourneau to Everyone:

Please include a list of attendees. Thank you.

18:15:31 From Caro Bosca to Everyone:

What do you mean by launching dock. What do you envision docking there?

18:15:54 From Decia Goodwin Brian Conway to Everyone:

Please describe purpose and use of dock. Will boats and kayaks be permitted to use? There has been interest in using the dock from a commercial river shuttle. "Wattah Hoppah")

18:16:17 From Drew Rollert to Everyone:

Wada Hoppah actually

18:17:40 From Caro Bosca to Everyone:

What is the height of each dock

18:18:40 From Drew Rollert to Everyone:

What does not designed for accepting boats mean? Is it a height issue?

18:19:14 From Caro Bosca to Everyone:

You have the parking lot outlined in red for 2.2 is that being repaved

18:19:20 From Drew Rollert to Everyone:

Thanks

18:20:28 From Phil Michael to Everyone:

Is the Charles swimmable yet?

18:20:28 From Caro Bosca to Everyone:

Did you say august 1 was the start of closing of the lot

18:20:51 From christine liu to Everyone:

Thank you for clarifying the construction timeline. I know you went through it (starting in August, ending at end of 2026), but if there's an up-do-date outlined document of the project timeline, please share. It will be useful to distribute, thank you so much.

18:21:00 From Decia Goodwin Brian Conway to Everyone:

what is happening with the swale to the south east of the main area

18:22:27 From Caro Bosca to Everyone:

And will the pool be closed during construction?

18:24:50 From Drew Rollert to Everyone:

One more question, will there be any guide lights on the dock like there are on other docks downtown?

18:25:00 From Drew Rollert to Everyone:

(Hatch Shell dock)

18:26:11 From Drew Rollert to Everyone:

(Guide lights are embedded into the dock planks and light it at night)

18:27:07 From Caro Bosca to Everyone:

Will the equipment be gone by oct 22?

18:31:03 From christine liu to Everyone:

Does any part of the phase 2.2 (or Master Plan in general) involve installation of public restrooms? Right now it's just porta potties. Thank you.

18:34:35 From Decia Goodwin Brian Conway to Everyone:

Can you share the new planting plan, as bid, as in the initial rendering/illustration you showed at the beginning tonight

18:36:44 From Caro Bosca to Everyone:

I am assuming the parking lot beneath the pool being completely removed?

18:37:05 From Caro Bosca to Everyone:

Will there be any trash cans as part of the plan

18:38:02 From Caro Bosca to Everyone:

And is a water fountain included?

18:41:11 From Caro Bosca to Everyone:

To be clear the riverside trailers will be able to remain in place with the equipment set ups?

18:43:27 From Paul Kelley to Everyone:

Will there be something that offers shade in these new places to sit along the pool fence?

18:45:45 From Caro Bosca to Everyone:

Are you saying the parking lot will be off limits until 2026 maybe Juneish.

18:45:48 From Decia Goodwin Brian Conway to Everyone:

5 spots for bike parking will not come close to meeting the need for new facilities. MBP is willing to contribute.

18:50:50 From Caro Bosca to Everyone:

Is there a way we could allow single and double boats dropped off during the HOOR

18:52:21 From Caro Bosca to Everyone:

But you said the area wouldn't include the riverside trailers. So we could use that area for drop offs

18:54:39 From Drew Rollert to Everyone:

Thanks Dan. Thanks Joseph.

18:55:45 From Caro Bosca to Everyone:

Thanks!
