## Section B: State-Level Indicators

## Topic I. Program Characteristics and Enrollment

Number	Indicator	Response
BI.1	Statewide Medicaid enrollment	2,324,510
	Enter the total number of individuals enrolled in Medicaid as of the first day of the last month of the reporting year. Include all FFS and managed care enrollees, and count each person only once, regardless of the delivery system(s) in which they are enrolled.	
BI.2	Statewide Medicaid managed care enrollment	1,643,380
	Enter the total, unduplicated number of individuals enrolled in any type of Medicaid managed care as of the first day of the last month of the reporting year. Include enrollees in all programs, and count each person only once, even if they are enrolled in more than one managed care program or more than one managed care plan.	

### Topic III. Encounter Data Report

Number	Indicator	Response
BIII.1	Data validation entity	State Medicaid agency staff
	Select the state agency/division or contractor tasked with evaluating the validity of encounter data submitted by MCPs. Encounter data validation includes verifying the accuracy, completeness, timeliness, and/or consistency of encounter data records submitted to the state by Medicaid managed care plans. Validation steps may include pre-acceptance edits and post- acceptance analyses. See Glossary in Excel Workbook for more information.	

## Topic X: Program Integrity

#### Response

## BX.1 Payment risks between the state and plans

Describe service-specific or other focused PI activities that the state conducted during the past year in this managed care program. Examples include analyses focused on use of long-term services and supports (LTSS) or prescription drugs or activities that focused on specific payment issues to identify,

address, and prevent fraud, waste or abuse. Consider data analytics, reviews of under/overutilization, and other activities. The MassHealth Program Integrity Unit and Compliance Unit met guarterly with ACPPs to discuss contract management and topics related to controls against fraud, waste and abuse, including but not limited to recent trends, audits, overpayment issues, reporting, and best practices for program integrity controls. In addition, MassHealth reviewed the ACPPs annual Compliance Plan and Anti-Fraud, Waste and Abuse Plan, in order to ensure compliance with applicable contract requirements and to ensure ACPPs have appropriate controls in place. In addition, in July 2022 MassHealth implemented new ACPP Summary of Provider Overpayments Reporting. MassHealth published new, extremely detailed reporting requirements along with a new reporting template. This is a semi-annual report that includes all overpayments identified during the prior Contract Year through present, including all investigatory and recovery activity related to such overpayments. These reports now provide MassHealth with comprehensive information related to the impact of ACPPs' controls, including the breadth of provider types reviewed and methodologies employed; the number and amount of overpayments identified and recovered by ACPPs; the reasons for overpayments; next steps and actions taken; and claim-level detail to enable validation of recovery activity in the encounter data and financial reporting. In Contract Year 2022, MassHealth's primary focus was on implementation of these new reports and ensuring compliance with the new requirements. Moving forward, the information contained in the new Summary of Provider Overpayments reports will enable MassHealth to share best practices across ACPPs, monitor performance management, and enforce the relevant contract provisions related to overpayments that the plans fail to identify and/or recover. Further, in Contract Year 2022 MassHealth developed strengthened ACPP contractual provisions related to enforcement of overpayment requirements, which will become effective April 2023. These new requirements will support MassHealth's ongoing expansion of ACPP oversight, which will include direct audits of ACPP providers and

encounters beginning in Contract Year 2024 for dates of service in 2023.

#### BX.2 **Contract standard for** State has established a hybrid system overpayments Does the state allow plans to retain overpayments, require the return of overpayments, or has established a hybrid system? Select one. BX.3 Location of contract 2.3.C.3.a.19 provision stating overpayment standard Describe where the overpayment standard in the previous indicator is located in plan contracts, as required by 42 CFR 438.608(d)(1)(i). **BX.4 Description of overpayment** If a plan identifies an overpayment prior to the contract standard state, the plan shall recover the overpayment and may retain the overpayment. If no Briefly describe the collection action is taken by the plan within 180 overpayment standard (for example, details on whether days, the state may begin collection activity and the state allows plans to retain shall retain the overpayment. If the state overpayments, requires the identifies an overpayment prior to the plan, the plans to return overpayments, state may explore options, up to and including or administers a hybrid system) selected in indicator B.X.2. recovering the overpayment from the plan. BX.5 State overpayment reporting ACPPs are contractually required to submit the monitoring following overpayment reports: (1) Notification of Provider Overpayments (ad hoc within 5 Describe how the state days of overpayment identification); (2) Fraud monitors plan performance in reporting overpayments to the and Abuse Notification (ad hoc within 5 days of state, e.g. does the state track identification); (3) Self-Reported Disclosures compliance with this Report (ad hoc); (4) Summary of Provider requirement and/or timeliness Overpayments (quarterlyl); and (5) Fraud and of reporting? The regulations at 438.604(a) Abuse Report (annual). Each of the ad hoc (7), 608(a)(2) and 608(a)(3) reports are screened by MassHealth. The require plan reporting to the quarterly and annual reports are reviewed by state on various overpayment MassHealth for compliance, performance pieces (whether annually or promptly). This indicator is management, and best practices. asking the state how it monitors that reporting.

## BX.6 Changes in beneficiary circumstances

Describe how the state ensures timely and accurate reconciliation of enrollment files between the state and plans to ensure appropriate payments for enrollees Plans must report to EOHHS when they receive information on a change in Enrollee circumstances which may impact their eligibility primarily via a daily enrollment file exchange. The state and the plans use the daily enrollment files and other reporting to reconcile changes in Enrollee enrollment status,

	experiencing a change in status (e.g., incarcerated, deceased, switching plans).	including but not limited to, a change in an Enrollee's residence, identification of TPL, or death of an Enrollee. Plans must have member permission to report a change of residence.
BX.7a	Changes in provider circumstances: Monitoring plans	Yes
	Does the state monitor whether plans report provider "for cause" terminations in a timely manner under 42 CFR 438.608(a)(4)? Select one.	
BX.7b	Changes in provider circumstances: Metrics	Yes
	Does the state use a metric or indicator to assess plan reporting performance? Select one.	
BX.7c	Changes in provider circumstances: Describe metric Describe the metric or indicator that the state uses.	Plans must report no later than five business days when it receives information about a change in a provider's circumstances that may impact its ability to participate in the plan's network or the state.
BX.8a	<b>Federal database checks:</b> <b>Excluded person or entities</b> During the state's federal database checks, did the state find any person or entity excluded? Select one. Consistent with the requirements at 42 CFR 455.436 and 438.602, the State must confirm the identity and determine the exclusion status of the MCO, PIHP, PAHP, PCCM or PCCM entity, any subcontractor, as well as any person with an ownership or control interest, or who is an agent or managing employee of the MCO, PIHP, PAHP, PCCM or PCCM entity through routine checks of Federal databases.	No
BX.9a	Website posting of 5 percent or more ownership control	Yes

Does the state post on its website the names of individuals and entities with 5% or more ownership or control interest in MCOs, PIHPs, PAHPs, PCCMs and PCCM entities and subcontractors? Refer to §455.104 and required by 42 CFR 438.602(g)(3).

## BX.9bWebsite posting of 5 percent<br/>or more ownership control:<br/>Linkhttpconcon

Periodic audits

**BX.10** 

https://www.mass.gov/info-details/managedcare-entity-disclosure-of-ownership-andcontrol-addendum-information

What is the link to the website? Refer to 42 CFR 602(g)(3).

#### MassHealth will begin audits in 2023.

If the state conducted any audits during the contract year to determine the accuracy, truthfulness, and completeness of the encounter and financial data submitted by the plans, what is the link(s) to the audit results? Refer to 42 CFR 438.602(e).

of expedited appeals that is no longer than 72 hours after the MCO, PIHP or PAHP receives the appeal.

#### C1IV.4 State definition of "timely" resolution for grievances

Provide the state's definition of timely resolution for grievances in the managed care program. Per 42 CFR §438.408(b)(1), states must establish a timeframe for timely resolution of grievances that is no longer than 90 calendar days from the day the MCO, PIHP or PAHP receives the grievance. For the standard resolution of Grievances and notice to affected parties, no more than 30 calendar days from the date the Contractor received the Grievance, either orally or in writing from a valid party.

#### Topic V. Availability, Accessibility and Network Adequacy

#### **Network Adequacy**

Number	Indicator	Response
C1V.1	Gaps/challenges in network adequacy What are the state's biggest challenges? Describe any challenges MCPs have maintaining adequate networks and meeting standards.	MassHealth ACPPs face similar challenges to those faced by all other plans (including those in the commercial insurance space) with the availability of providers for certain specialties and behavioral health services in underserved areas. Additionally, MassHealth's PCP exclusivity requirements also present some challenges as primary care practices can only serve members in one ACPP.
C1V.2	State response to gaps in network adequacy How does the state work with MCPs to address gaps in network adequacy?	MassHealth uses its contract to enforce standards that protect access to care. When issues arise, we connect with MCP key contacts to identify the issue, develop a long term plan to correct the issue, and a plan to preserve member access to services while the underlying issue is being addressed. When appropriate MassHealth also engages with our clinical staff to speak with the MCP. MassHealth has included many tools in its contracts to address non-compliance including, corrective workplan, formal corrective action plan, sanctions, or contract termination.

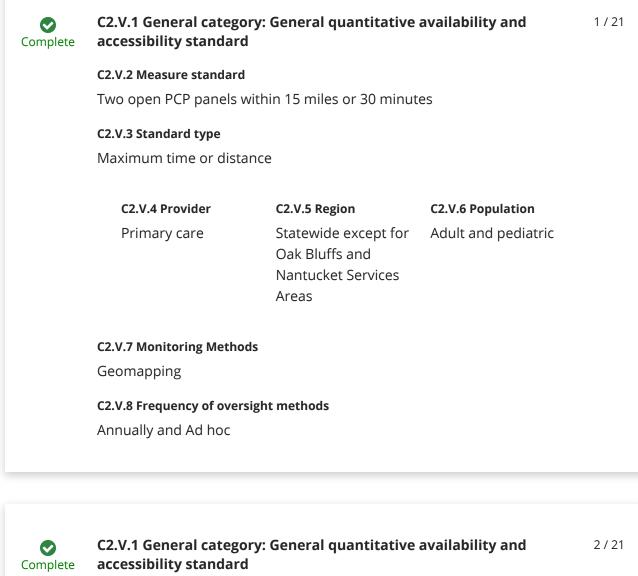

#### **Access Measures**

Describe the measures the state uses to monitor availability, accessibility, and network adequacy. Report at the program level.

Revisions to the Medicaid managed care regulations in 2016 and 2020 built on existing requirements that managed care plans maintain provider networks sufficient to ensure adequate access to covered services by: (1) requiring states to develop quantitative network adequacy standards for at least eight specified provider types if covered under the contract, and to make these standards available online; (2) strengthening network adequacy monitoring requirements; and (3) addressing the needs of people with long-term care service needs (42 CFR 438.66; 42 CFR 438.68).

42 CFR 438.66(e) specifies that the MCPAR must provide information on and an assessment of the availability and accessibility of covered services within the MCO, PHIP, or PAHP contracts, including network adequacy standards for each managed care program.

#### C1IX.3 BSS LTSS program data

N/A

How do BSS entities assist the state with identifying,

remediating, and resolving systemic issues based on a review of LTSS program data such as grievances and appeals or critical incident data? Refer to 42 CFR 438.71(d)(4).

## C1IX.4 State evaluation of BSS entity performance

What are steps taken by the state to evaluate the quality, effectiveness, and efficiency of the BSS entities' performance? AHS - The State evaluates AHS's quality, effectiveness, and efficiency through various contract management, internal controls, and reporting requirements. For example, Section 2.10 of AHS's contract requires that AHS participate in contract management meetings on an ad hoc guarterly basis to address project plans, operational issues, progress toward annual goals, and the status of any Quality Improvement Projects. Upon the State's request, AHS is also required to work with EOHHS and designated vendors to enhance program and operational efficiency. AHS is further required to conduct an independent annual compliance audit, cooperate and participate in program or financial audits and maintain and submit to EOHHS fraud, waste, and abuse protocols (see Section 2.9). AHS is also required to submit standard reports on a weekly, monthly, quarterly and ad hoc basis (see Section 2.5). AHS is further required to use principles of continuous quality improvement to satisfy its obligations under its contract, which include analyzing data measuring contractor performance, training staff, recommending operational improvements, and identifying and implementing Quality Improvement Projects and related reports (see Section 2.6). Maximus - The State evaluates Maximus's quality, effectiveness, and efficiency through various contract management, internal controls, and reporting requirements. For example, Section 4.8 of Maximus's contract requires that Maximus engage in weekly and ad hoc meetings with EOHHS to address project plans, operational issues, progress toward annual goals, and the status of any quality improvement projects. Maximus is further required to conduct an independent annual compliance audit, cooperate and participate in program or financial audits and maintain and submit to EOHHS fraud, waste, and abuse protocols (see Section 4.9). Maximus is also required to use principles of continuous quality improvement to satisfy its obligations under its contract, which include analyzing data

measuring contractor performance, training staff, recommending operational improvements, and identifying and implementing Quality Improvement Projects and related reports (see Section 4.10). Lastly, the Maximus contract contains general reporting requirements (see Section 4.13), which include weekly, monthly, quarterly, and ad hoc reports detailing, e.g., member transactions and customer encounters. My Ombudsman (MYO) - The State evaluates My Ombudsman's quality, effectiveness and efficiency through various contract management, internal controls and reporting requirements; through routine review of satisfaction survey data (My Ombudsman asks each member they work with to complete a survey to evaluate their satisfaction with services once a case has been closed); and through weekly case meetings.

D1IV.13	Number of critical incidents
	filed during the reporting
	period by (or on behalf of) an
	LTSS user who previously
	filed a grievance

For managed care plans that cover LTSS, enter the number of critical incidents filed within the reporting period by (or on behalf of) LTSS users who previously filed grievances in the reporting year. The grievance and critical incident do not have to have been "related" to the same issue they only need to have been filed by (or on behalf of) the same enrollee. Neither the critical incident nor the grievance need to have been filed in relation to delivery of LTSS - they may have been filed for any reason, related to any service received (or desired) by an LTSS user. If the managed care plan does not cover LTSS, the state should enter "N/A" in this field. Additionally, if the state already submitted this data for the reporting year via the CMS readiness review appeal and grievance report (because the managed care program or plan were new or serving new populations during the reporting year), and the readiness review tool was submitted for at least 6 months of the reporting year, the state can enter "N/A" in this field. To calculate this number, states or managed care plans should first identify the LTSS users for whom critical incidents were filed during the reporting year, then determine whether those

### D1IV.16j Resolved grievances related to plan denial of expedited appeal

Enter the total number of grievances resolved during the reporting year that were related to the plan's denial of an enrollee's request for an expedited appeal. Per 42 CFR §438.408(b)(3), states must establish a timeframe for timely resolution of expedited appeals that is no longer than 72 hours after the MCO, PIHP or PAHP receives the appeal. If a plan denies a request for an expedited appeal, the enrollee or their representative have the right to file a grievance.
