

MANAGING FIRE IN 2 1/2 STORY WOOD FRAME DWELLING

Presented by: Kenneth Galligan: Retired Chief, Brockton, MA Fire Department

February 20, 2020

Activity Number:
372-E1

Location:
Wayland High School
264 Old Connecticut Path
Wayland, MA

Time:
0900-1300

This course will help the company officer address the issues of resources and response needs to residential structure fires. These incidents challenge even the most senior officers with the complexities associated with command and control of these responses. While trying to accomplish all of the necessary on-scene tasks such as water supply, search & rescue, fire attack, exposures protection, ladder placement, utilities and rehab, the company officer must continuously size-up and adjust their mission.
