(c) Subject to the terms and conditions herein, the Issuing Authority hereby grants to Licensee the right to construct, upgrade, install, operate and maintain a Cable System within the Public Way.

SECTION 2.2 – TERM: NON-EXCLUSIVITY

The term of this non-exclusive Renewal License shall be for a period of ten (10) years and shall commence on December 1, 2020, following the expiration of the current license, and shall expire at midnight on November 30, 2030.

SECTION 2.3 - RENEWAL

(a) In accordance with the provisions of federal law, M.G.L. c. 166A, § 13 and applicable regulations, this Renewal License shall be subject to additional renewals for the periods not to exceed ten (10) years or such other periods as allowed by law.

(b) In accordance with applicable law, any such renewal or renewals shall be upon mutual written agreement by Licensee and the Issuing Authority and shall contain such modified or additional terms as Licensee and the Issuing Authority may then agree.

SECTION 2.4 - RESERVATION OF AUTHORITY

Nothing in this Renewal License shall (A) abrogate the right of the Issuing Authority to perform any public works or public improvements of any description, (B) be construed as a waiver of any codes or bylaws of general applicability and not specific to the Cable System, Licensee, or this License, or (C) be construed as a waiver or release of the rights of the Issuing Authority in and to the Public Ways. This License is a contract and except as to those changes which are the result of the Issuing Authority's lawful exercise of its general police power, neither the Issuing Authority, nor the Licensee, may take any unilateral action which materially changes the explicit mutual promises in this License. Any changes to this License must be made in writing signed by the Licensee and the Issuing Authority. In the event of any conflict between this License and any Issuing Authority bylaw or regulation that is not generally applicable, this License shall control. In the event of any conflict between this License and any bylaw or regulation which is generally applicable, the bylaw or regulation shall control, subject to challenge as to the legality of the bylaw or regulation. Notwithstanding any other provision of this License, Licensee reserves the right to challenge provisions of any bylaw, rule, regulation, or other enactment of the Issuing Authority that conflicts with its contractual rights under this License, either now or in the future.

SECTION 2.5 - NON-EXCLUSIVITY OF LICENSE

(a) This Renewal License shall not affect the right of the Issuing Authority to grant to any other Person a license or right to occupy or use the Public Ways or streets, or portions thereof, for the construction, upgrade, installation, operation or maintenance of a Cable Television System within the Town of Hull; or the right of the Issuing Authority to permit the use of the Public Ways and places of the Town for any purpose(s) whatsoever. The Licensee hereby acknowledges the Issuing Authority's right to make such grants and permit such uses.

(b) The grant of any additional cable television license(s) shall be at the sole discretion of the Issuing Authority.

(i) In the event that the Licensee believes that any additional cable television license(s) have been granted on terms and conditions more favorable or less burdensome than those contained in this

Renewal License, the Licensee may request, in writing, that the Issuing Authority convene a public hearing on that issue. Along with said written request, the Licensee shall provide the Issuing Authority with written reasons for its belief. At the public hearing, the Issuing Authority shall afford the Licensee an opportunity to demonstrate that any such additional cable television license(s) are on terms more favorable or less burdensome than those contained in this Renewal License. The Licensee shall provide the Issuing Authority with such financial or other relevant information as is requested.

(ii) Should the Licensee demonstrate that any such additional cable television license(s) have been granted on terms and conditions more favorable or less burdensome than those contained in this Renewal License, the Issuing Authority shall negotiate, in good faith, equitable amendments to this Renewal License within a reasonable time.

(c) The issuance of additional license(s) shall be subject to applicable federal law(s), and M.G.L. Chapter 166A and applicable regulations promulgated thereunder.

(d) In the event an application for a new cable television license is filed with the Issuing Authority, proposing to serve the Town, in whole or in part, the Issuing Authority shall serve a copy of such application upon the Licensee by certified mail or via nationally recognized overnight courier services within a reasonable time thereafter.

(e) In the event that the Licensee believes that in the future another Licensee which has been granted a cable television license in the Town, has been provided relief by the Issuing Authority from a material obligation(s) of its license, which may include amendments to the license, that causes said other cable television license to be more favorable or less burdensome than this Renewal License, the Licensee may request, in writing, that the Issuing Authority convene a public hearing on that issue. Along with said written request, the Licensee shall provide the Issuing Authority with written reasons for its belief. The Licensee shall provide the Issuing Authority with such financial or other relevant information as is requested. At the public hearing, the Issuing Authority shall afford the Licensee an opportunity to demonstrate that such relief causes said other cable license to be favorable or less burdensome than this Renewal License. Should the Licensee demonstrate that any such relief causes said other cable television license to be more favorable or less burdensome than the Renewal License, the Issuing Authority shall consider and negotiate, in good faith, equitable amendments to this Renewal License

SECTION 2.6– POLICE AND REGULATORY POWERS

By executing this Renewal License, the Licensee acknowledges that its rights are subject to the powers of the Town and its right to adopt and enforce generally applicable by-laws in the lawful exercise of

its police powers to the extent permitted by applicable law, with respect to the safety and welfare of the public. The Licensee shall comply with all applicable federal and State laws and regulation, and Town bylaws and lawful regulations, provided such Town bylaws and regulations are not specific to this License, the Licensee and/or Cable System. Nothing in this Section 2.6 shall be deemed to prohibit the right of the Licensee to challenge the legality of a Town by-law or regulation.

SECTION 2.7 – REMOVAL OR ABANDONMENT

Upon termination of this Renewal License by passage of time or otherwise, unless (1) the Licensee has its license renewed for another term or (2) the ownership of the Cable Television System is transferred to another Person with written approval by the Issuing Authority in accordance with applicable law and pursuant to Section 2.8 below or (3) unless otherwise operating under the terms of this Renewal License as allowed by applicable law, the Licensee shall remove all of its supporting structures, poles, transmission and distribution systems, and other appurtenances from the Public Ways and shall restore the areas to their original condition as is reasonably possible and as soon as reasonably possible. If such removal is not complete within six (6) months of such termination, the Issuing Authority may deem any property not removed as having been abandoned. Upon written request of the Licensee, the Issuing Authority may waive this requirement for good cause shown. Notwithstanding the foregoing, under 47 USC Sec. 541(b)(3)(C) the Issuing Authority may not order the Licensee or any affiliate thereof (i) to discontinue the provision of a telecommunications service, or (ii) to discontinue the operation of a cable system, to the extent such cable system is used for the provision of a telecommunications service, by reason of the failure of the Licensee or its affiliate to obtain a cable franchise or cable franchise renewal with respect to the provision of such telecommunications service.

SECTION 2.8 – TRANSFER OF THE RENEWAL LICENSE

(a) Pursuant to M.G.L. c. 166A, Section 7, as may be amended from time to time, neither the Renewal License, nor control thereof, shall be transferred, assigned or disposed of in any manner, voluntarily or involuntarily, directly or indirectly, or by transfer of control of any Person, company and/or other entity holding such Renewal License to any other Person, company and/or other entity, without the prior written consent of the Issuing Authority, which consent shall not be arbitrarily or unreasonably withheld. Such consent shall be given only after a public hearing upon a written application therefore on forms as may be prescribed by the FCC and/or the DTC. An application for consent to a transfer or assignment, if required,

shall be signed by the Licensee and by the proposed transferee or assignee or by their representatives, evidence of whose authority shall be submitted with the application. A transfer or assignment of a license or control thereof between commonly controlled entities, between affiliated companies, or between parent and subsidiary corporations, shall not constitute a transfer or assignment of a license or control thereof under this Renewal License, unless otherwise provided by applicable federal or State law. An “affiliated company” is any Person or entity who owns or controls, is owned or controlled by, or is under common ownership or control with, such Person or entity.

(b) Pursuant to applicable State and federal law, as may be amended, in considering a request to transfer control of the Renewal License, the Issuing Authority shall consider the transferee's financial capability, management experience, technical expertise and legal ability to operate a Cable System under the existing license and may consider any other criteria allowable under applicable law or regulation.

(c) The consent or approval of the Issuing Authority to any assignment or transfer of the Renewal License granted to the Licensee shall not constitute a waiver or release of the rights of the Town in and to the streets and Public Ways or any other rights of the Town under the Renewal License, and any such transfer shall, by its terms, be expressly subordinate to the terms and conditions of the Renewal License.

(d) The Licensee shall submit to the Issuing Authority an original and one (1) copy, unless otherwise required by applicable law, of the application and FCC Form 394 requesting such transfer or assignment consent.

(e) The consent of the Issuing Authority shall be given only after a public hearing to consider the written application for transfer. Unless otherwise allowed by applicable law(s), the Issuing Authority shall make a decision on said written application within one hundred and twenty (120) days of receipt of said application. After 120 days, the application shall be deemed approved, unless said 120-day period is extended in writing by mutual agreement of the parties pursuant to applicable law.

(f) Any proposed controlling or owning Person or transferee approved by the Issuing Authority shall be subject to all of the terms and conditions contained in the Renewal License.

SECTION 2.9 – EFFECT OF UNAUTHORIZED TRANSFER ACTION

(a) Any transfer of the Cable System without the Licensee and the transferee complying with Section 2.8 above shall be null and void, and shall be deemed a material breach of this Renewal License.

(b) The grant or waiver of any one or more of such consents shall not render unnecessary any subsequent consent or consents, nor shall the grant of any such consent constitute a waiver of any other rights of the Town.

ARTICLE 3

SYSTEM SPECIFICATIONS AND CONSTRUCTION

SECTION 3.1 - AREA TO BE SERVED/INSTALLATION CHARGES/RESIDENTIAL SUBDIVISIONS

(a) The Licensee shall make Cable Service available to every residential dwelling unit within the Town where the minimum density is at least 20 dwelling units per aerial mile and 40 dwelling units per underground mile, and Cable Service likewise shall be extended where such density standard is met proportional to the portions of line extension of less than a full mile. If within a development where the contractor provides useable conduit at no cost to the Licensee, the underground density requirement shall be twenty (20) dwelling units per mile or fractional portion thereof. Notwithstanding the foregoing, any existing street or area that is already wired and receiving Cable Service shall continue to receive Cable Service regardless of the density of households in such already wired street or area. The Licensee shall make service available to multiple dwelling units (MDU) provided that the Licensee is able to obtain from the property owners any necessary easement, permits and agreements to provide service to said MDU. For non-standard Installations, the Licensee shall offer said services within ninety (90) days of a Subscriber requesting aerial installations and one hundred eighty (180) days, weather permitting, of a Subscriber requesting such for underground installations. With respect to areas of the Town which are currently unserved but could be served by abutting town(s) served by Licensee, Licensee shall, for good cause stated in writing to the Issuing Authority, have the option to serve such areas from its cable television system in such abutting town.

(b) Installation costs shall conform with the Cable Act. Any dwelling unit within one hundred fifty feet (150 ft.) aerial or one hundred fifty feet (150 ft.) underground of the Trunk and Distribution Cable shall be entitled to a Standard Installation rate, unless the sub-surface is a hard surface or requires boring through rock of similar hard surface (i.e. concrete, asphalt, etc.). Aerial installations of more than one hundred fifty feet (150') or which involve a hard surface or which require borings shall be provided at a rate established by the Licensee subject to applicable law or regulations, if any. For underground installations
