244 CMR 6.05 (3)(b) Annual Reports, Massachusetts College of Pharmacy and Health Sciences Boston
Baccalaureate Degree Nursing Program

DISCUSSION:

RECUSAL: K.A. Barnes recused herself from the matter and left the Board Meeting Via Webex during the deliberation and vote. S. Waite summarized her previously distributed memorandum and attached exhibits to the Board.

A. Gauntlett, program administrator, was present via video. T. Gravel, the Interim Dean of the Massachusetts College of Pharmacy and Health Sciences Worcester, was present via video.

A. Gauntlett stated things have shifted regarding the types of clinicals the program is providing and several additional sites have been gained. C. MacDonald asked A. Gauntlett about the 100% Virtual Mental Health Clinical regarding what the plans are in maintaining compliance with the NCSBN Guidelines on Simulation. In response to C. MacDonald, A. Gauntlett stated the particular aspects of mental health the program wanted to make sure the students are competent in are getting address by virtual, however the students are still in multiple types of sites, emergency rooms, community health

settings, but it is not particularly at a mental health site, so that is the difference, because they found the students were not being allowed to do a lot with mental health, it was more of an observational thing. A. Gauntlett stated that in order to address the actual competencies that the students needed to get out there, the program made sure they were addressed through the virtual piece. C. MacDonald asked A. Gauntlett if the mental health clinical objectives are being integrated into some of the other courses, how can the students be doing 100% of that in simulation. In response to C. MacDonald, A. Gauntlett stated it is not 100% in simulation. The program ensures that there are certain points and content that the program wants the students to make sure that they see in simulation, but there are other pieces that the students get to see out in the community and other health care settings. C. MacDonald asked S. Waite if that is clear in the documents. S. Waite responded that this was not clear in the Change report. C. MacDonald asked A. Gauntlett if the program does not actually have 100% of the planned clinical experiences by simulation, then the program will need to make sure that the plans and the courses really demonstrate where the mental health clinical experiences are taking place, if they are being held in community settings, or integrated or threaded through other courses, the documentation needs to reflect that, because the program does not want to state that 100% of the simulation is taking place in a virtual setting, when the guidelines do not support that. In response to C. MacDonald, A. Gauntlett stated she is happy to share the Curriculum Map with the Board which will show where things are if that is what the Board wanted for further documentation, and the Systematic Evaluation Plan is in the Curriculum Mapping.

D. Drew asked A. Gauntlett to clarify what is 100% Virtual Clinical and Virtual Simulations. In response to D. Drew, A. Gauntlett stated when the program says Virtual, it is not an in person thing, sometimes there is not a real person, and when the program uses Shadow Health, there is a simulated patient. A. Gauntlett stated when the program does a Community-Type Virtual, there is a real patient, it is a real setting, but the students are viewing it from a virtual place. A. Gauntlett stated the program is using Shadow Health and other scenarios is to make sure the students are actually encountering some of the things that they should know and answer or be able to speak to by the end of the program, because the students do not always get to see everything in a clinical experience, and it is more of a concise way for the program to measure the students' competencies as well. D. Drew stated the idea is the Board is looking for clarification of what portion of the 100% Virtual is a simulation and what portion is actual patients.

K. Crowley stated the Board wanted information on how the mental health competencies for clinical are evaluated and how they are threaded through the courses, where they are addressing mental health issues, and the Board needs to see more evidence where the mental health competencies and clinical objectives have been added to those other courses in addition to the Curriculum Mapping, and if the program is also doing virtual with simulated Shadow Health, what is the plan for the virtual piece and if it is through some kind of application. In response to K. Crowley, A. Gauntlett stated there was a change in credits and realignment, and the program is one (1) credit shorter.

K. Crowley stated the program changed the Pharmacology Course 3010. In response to K. Crowley, A. Gauntlett stated the course material for the Pharmacology Course 3010 is threaded throughout the rest of the program in the clinical courses.

L. Kelly asked D. Drew if she is satisfied with the simulation versus virtual courses questions. D. Drew stated she is satisfied. L. Kelly asked A. Gauntlett if there are any changes to the program outcomes. In response to L. Kelly, A. Gauntlett stated the program outcomes have aligned with the standards to meet with the CCNE and MNoF, and she would have to find out if the program outcomes have changed significantly.

C. MacDonald stated the program needs to comply with the Board's regulations. In response to C. MacDonald, A. Gauntlett stated the program has the Curriculum Mapping it can share with the Board, and the program changed the outcomes one (1) or two (2) years ago, and the program is still meeting them.

C. MacDonald asked A. Gauntlett about the End of Program Learning Outcomes and if they will be changing. In response to C. MacDonald, A. Gauntlett stated they will not be changing.

E. Pusey-Reid asked A. Gauntlett about the changes the program is implementing and if it will start with the New Cohort or the present students who are in the program. In response to E. Pusey-Reid, A. Gauntlett stated it has been a curriculum change in transition and small changes have been made over the last few years, there is course catalog information, there is website information, the students are invited to the curriculum meetings, and there are town hall virtual meetings to get input. A. Gauntlett stated the changes are only coming in with the New Cohort, and not the existing programs the students are enrolled in. In response to K. Crowley, H. Caines Robson stated about the 50% change of a Curriculum and < 50% Curriculum change can be reported with the Annual Report. D. Drew asked L. Kelly if this should have been a pre-approval change. In response to D. Drew and L. Kelly, S. Waite stated it is unclear how to define 50% of a change. S. Waite stated the program went from 65 credits to 64 credits and she explained the reason for the change.

K. Crowley stated the program can provide evidence to the Board's questions regarding:

- (1) Clinical component of Course 422 and the simulation versus virtual.
- (2) Where the program threads the mental health concepts with the clinical competencies throughout their other courses.
- (3) The course objectives of the old courses with the course objectives of the new courses and how the new course objectives align to the End of Program Learning Outcomes that the program originally changed a couple of years ago.

E. Pusey-Reid stated the Board needs to see a comparative table with old courses, the new courses, and things that the program has resolved, where the goal in what courses is in, what objective went with which course, compare all of that, the last column will tell the Board which outcome that change is going to meet, because the program kept the outcome the same, changing those where did the content go within the concept base, and how is that continuing to meet the current outcomes, so the Board can clearly see the program is meeting the objective of the guidelines from the NCSBN.

K. Crowley stated the three (3) End Asks:

- (1) Clarification of NUR Course 422, where those competencies went in the concept case realignment for mental health clinical competencies and such with the other courses.
- (2) What the program is using in Course 422 in regards to simulation through Shadow Health versus any virtual through any applications if there is anything.
- (3) The whole realignment of those other courses with their course objectives, the old course objectives and what program outcome they met, the new courses objectives and what program outcome they met.

In response to L. Kelly, S. Waite stated the Documents the program will need to provide to the Board:

- (1) A comparative table for the old course objectives and the new course objectives including how that correlates with the program outcomes.

(2) Specifically NUR Course 422, pull out what was the clinical objectives and see where they have been identified throughout the program, and identify how, in the didactic course, the virtual product would be used lieu of the clinical.

L. Kelly stated the Due Date for providing the Documentation will be moved from April 9, 2021 Board Meeting to the May 12, 2021 Board Meeting.

ACTION:

Motion by L. Kelly, seconded by L. Keough, and voted by roll call with A. Alley, K. Crowley, D. Drew, J. Kaneb, L. Kelly, L. Keough, C. LaBelle, D. Nikitas, E. Pusey-Reid and L. Wu unanimously in favor to:

1. Accept the Program's 244 CMR 6.07 (3) Program Change report for New/Revised Curriculum with the Changes discussed at the March 10, 2021 Board Meeting.
2. Find the program is in compliance with 244 CMR 6.05 (3)(b).
3. Continue Full Approval Status at this time.
4. Direct the Program to provide the Board the following in order to demonstrate the correction of the regulatory deficiencies:
 - A. Due April 13, 2021:
 1. Submit a comprehensive plan of action for notification of curriculum change to current and prospective students [244 CMR 6.04 (3)(a)(3)].
 2. Submit a grid detailing the correlation between the course/student outcomes and the virtual/non-in-person clinical activities [244 CMR 6.40 (4)(b)(1)].
5. Submit the Documentation the Board members requested at the March 10, 2021 Board Meeting by May 12, 2021.

TOPIC: Education

244 CMR 6.05 (3)(b) Annual Reports, Massachusetts College of Pharmacy and Health Sciences Worcester Baccalaureate Degree Nursing Program

DISCUSSION:

RECUSAL: K.A. Barnes recused herself from the matter and left the Board Meeting Via Webex during the deliberation and vote. H. Caines Robson summarized her previously distributed memorandum and attached exhibits to the Board.

T. Gravel, Interim Dean and Chief Nurse Administrator, was present via video. T. Gravel stated she was the BSN program administrator up until recently when G. McGinty took over. G. McGinty, Associate Professor and the new BSN program administrator, was present via video.

T. Gravel stated the course objectives in the Worcester Program are similar to the Boston Program.

T. Gravel stated the students are in the current curriculum and how the program is reporting information.

S. Waite asked T. Gravel and G. McGinty about the changes that were made which were not listed clearly in the Program Change Report. In response to S. Waite, T. Gravel explained the credits for Course NUR

422 were shifted to the bigger Health and Wellness Courses, however the last time Course NUR 422 ran in the Summer 2020, it did have Virtual Clinical with it, it had Clinical Faculty who led discussions using the Shadow Health Cases with the student groups. T. Gravel stated that Mental Health was shifted into the bigger Health and Wellness Courses, and given that Mental Health is such a significant issue, she recommended to the Program Curriculum Committee to consider a revision to include clinical backing in the course considering the need for it.

K. Crowley asked T. Gravel and G. McGinty if the curriculum is the same at both campuses. T. Gravel stated the curriculum is the same, and the University decided to have a program administrator at the Boston Campus, and the Worcester Campus and Manchester, NH Campus continued with the program curriculum because they had strong program outcomes at that time. In response to K. Crowley, T. Gravel stated the all three (3) programs have the same curriculum, the same End of Program Student Learning Outcomes, and the same Course Numbers. K. Crowley stated the Change Report for the Worcester Program does not include the three (3) one (1) credit courses. K. Crowley stated she did not see a 500 level course in the Boston Program. In response to K. Crowley, T. Gravel stated she will clarify those issues for the Board. L. Kelly stated there are not a lot of details in the Program Change Report and the Board needs to see what is new, what has changed, and what is aligned. D. Drew asked if there are three (3) Campuses which are running the program. In response to D. Drew, T. Gravel stated there are three (3) Campuses: Boston, Worcester, and Manchester, NH.

C. MacDonald stated even though the three (3) programs have the same curriculum, there are two (2) different programs with different rules and have two (2) different NCLEX Codes, and they are not one (1) program.

S. Waite stated that if the Board Staff receives the Documents by May 12, 2021, they will be presented to the Board at the June 9, 2021 Board Meeting.

L. Kelly stated all of the recommendations the Board asked of the Massachusetts College of Pharmacy and Health Sciences Boston Baccalaureate Degree Nursing Program would be included in this recommendation also.

ACTION:

Motion by L. Kelly, seconded by K. Crowley, and voted by roll call with A. Alley, K. Crowley, D. Drew, J. Kaneb, L. Kelly, L. Keough, C. LaBelle, D. Nikitas and E. Pusey-Reid unanimously in favor to:

1. Accept the Program's 244 CMR 6.07 (3) Program Change report for revised Curriculum.
2. Find the program is in compliance with 244 CMR 6.05 (3)(b).
3. Continue Full Approval Status at this time.
4. Direct the Program to provide the Board the following in order to demonstrate the correction of the regulatory deficiencies:

A. Due by April 13, 2021:

1. Submit a comprehensive plan of action for notification of curriculum change to current and prospective students [244 CMR 6.04 (3)(a)(3)].

5. Submit the Documentation the Board members requested at the March 10, 2021 Board Meeting by May 12, 2021.

TOPIC: Education

244 CMR 6.05 (3)(b) Annual Reports, University of Massachusetts Dartmouth Baccalaureate Degree Nursing Program

DISCUSSION:

RECUSAL: S. Waite recused herself from the matter and left the Board Meeting Conference Room 417 during the deliberation and vote. G. Rivera stated that K.A. Barnes arrived back into the Board Meeting Via Webex at 10:03 a.m. H. Caines Robson summarized her previously distributed memorandum and attached exhibits to the Board.

K. Barnett, Assistant Dean for Undergraduate Studies, was present via video. K. Barnett stated the program admits between 115 and 120 students and the freshmen students do not have clinical courses. K. Crowley asked K. Barnett that there was no increase in the number of faculty, and what is the plan for increasing the number of faculty. In response to K. Crowley, K. Barnett stated the program has the ability and the budget to hire additional clinical faculty if needed.

ACTION:

Motion by L. Kelly, seconded by L. Keough, and voted by roll call with A. Alley, K.A. Barnes, K. Crowley, D. Drew, J. Kaneb, L. Kelly, L. Keough, C. LaBelle, D. Nikitas and E. Pusey-Reid unanimously in favor to:

1. Accept the Program's 244 CMR 6.07 (3) Program Change reports for (1) Admissions of 10 or more additional students and that the program has provided evidence that there are sufficient resources to support the increase.
2. Find the program is in compliance with 244 CMR 6.05 (3)(b).
3. Continue Full Approval Status at this time.

TOPIC: Education

244 CMR 6.06 (2) Waiver of 244 CMR 6.06 (1)(a), The College of Our Lady of the Elms Baccalaureate Degree Nursing Program

DISCUSSION:

H. Caines Robson summarized her previously distributed memorandum and attached exhibits to the Board. L. Kelly stated that S. Waite returned to the Board Meeting Conference Room 417 at 10:09 a.m. H. Caines Robson stated the program administrator is requesting the reconsideration of the Board's Actions of the December 9, 2020 Board Meeting.

K. Scoble, Dean of the School of Nursing and the program administrator, was present via video. K. Scoble stated she believes she submitted the documents that were required, she submitted the 11 Board required policies, she submitted the Systematic Evaluation Plan that accompanied the 2019 CCNE Site Study, she intended to attend the December 9, 2020 Board Meeting but was unable to do so, she did not intend to avoid the Board's Actions of the December 9, 2020 Board Meeting, and she provided the Documents in January 2021 that had not accompanied the Initial Waiver of 244 CMR 6.06 (1)(a) Request.

L. Kelly stated the Board members will need to decide if the Board should continue with its Actions of the December 9, 2020 Board Meeting, the Board members have been consistent with wanting the Board Education Staff to conduct Site Surveys. D. Drew stated that a Site Survey is not a punishment. L. Kelly asked the Board members if they should accept or deny the request for reconsideration.

J. Kaneb asked when the Last Board Site Survey was conducted. K. Scoble stated it was conducted in 2017 and was successful. H. Caines Robson stated the reason for the 2017 Site Survey and it was not a regularly-scheduled Site Survey.

ACTION:

Motion by D. Drew, seconded by K.A. Barnes, and voted by roll call with A. Alley, K.A. Barnes, K. Crowley, D. Drew, J. Kaneb, L. Kelly, L. Keough, C. LaBelle, D. Nikitas and E. Pusey-Reid unanimously in favor to DENY the Request for Reconsideration and to continue with the Actions of the December 9, 2020 Board Meeting.

TOPIC: Education

2020 Student Numbers Report

DISCUSSION:

S. Waite stated the Document is the 2012 – 2020 Student Numbers Report. The Document is for the Board members' review only, it does not require a vote, and the six (6) year variance is not included in the Report, but she will provide that information to the Board members prior to the April 14, 2021 Board Meeting.
