Description of Program / Initiative

An initiative to allow communities to create state-sponsored cultural districts to stimulate new arts and cultural activity and attract creative businesses. The evidence is clear: A thriving creative sector is one of our Commonwealth's most powerful economic development assets. In support of this, the Mass Cultural Council's Cultural Districts Initiative was authorized by an act of the Massachusetts state legislature in 2010, and launched in April 2011.

Cultural districts help local arts, humanities, and science organizations improve the quality and range of their public programs so that more local families can benefit from them. They enhance the experience for visitors and thus attract more tourist dollars and tax revenue. And they attract artists, cultural organizations, and entrepreneurs of all kinds - enhancing property values and making communities more attractive.

- 150 partnerships (we had a change in staffing for the program and it seems that the data collection changed as well because the way this number is captured now resulted in a wildly different total. We have to figure out what we did differently to account for the change. We think they left out the core steering committee members (which can be 20 to 30 entities per district) and only included outside partners.)
- Net gain 139 businesses
- Average increase in visitation of 7%

Cultural Investment Portfolio

Program / Initiative Website Link - if one exists

http://www.massculturalcouncil.org/programs/cultural_investment_portfolio.asp

Description of Program / Initiative

The Cultural Investment Portfolio (CIP) provides unrestricted general operating support grants and project support grants to nonprofit organizations that provide public programs in the arts, sciences, and humanities in Massachusetts.

CIP recognizes that organizations with an established record of programmatic service and administrative stability should have access to funds to support their organizational goals and objectives, and to maintain their ongoing programs, services, and facilities without special emphasis on new initiatives as justification for funding.

State investment in nonprofit arts, humanities, and science organizations yields returns in economic impact and increasing public access, according to the information gathered from the Massachusetts Cultural Data Project. In Fiscal Year 2016 Mass Cultural Council invested \$4.5 million in close to 400 nonprofit arts, humanities, and science organizations through the Cultural Investment Portfolio. In turn these organizations:

- Pumped more than \$1.2 billion into the state's economy through direct spending.
- Employed 32,889 independent contractors, and full-time and part-time workers.
- Paid more than \$36 million in payroll taxes.
- Delivered public programs that drew more than 20 million people. Nearly half of these individuals attended for free!

Served nearly 3.7 million children with arts, history, and science education programs through school partnerships and afterschool programs.

Generated more than \$138 million in individual contributions from residents of Massachusetts and beyond.
