As a local resident, I support Mass General Brigham's project to provide the same healthcare I receive today in Boston closer to my home. We need more access to care in our community – especially behavioral health, which this site will provide.

The project will also provide much needed jobs, including 300 union construction jobs and 200 permanent jobs, that will help our local economy emerge from the pandemic.

I support the Mass General Brigham project and ask the Department of Public Health to approve this application.

As a local resident, I support Mass General Brigham's proposed Westborough facility. Having an MGB facility in Metro West/Central MA would be an enormous help for MGB patients who currently drive into Boston for care.

The project will also provide much needed jobs, including 300 union construction jobs and 200 permanent jobs, that will help our local economy emerge from the pandemic.

I support the Mass General Brigham project and ask the Department of Public Health to approve this application.

I am also hoping that as this project gets established more Mass General Brigham/Dana Farber services will also be available - for example ongoing care for cancer patients. I am 77 and have a treatable but not curable cancer (CLL), which requires ongoing medical supervision. So I would appreciate having oversight treatment closer to home.

Thank you, Marty LeVan

I have been a resident of Westborough MA for 35 years and traveled to MGH Boston and most recently MGH Waltham for all my healthcare. Recently I moved 20 minutes away to Medway MA but plan to receive my care in Westborough MA when this project is completed.

As a local resident, I support Mass General Brigham's project to provide the same healthcare I receive today in Boston closer to my home. We need more access to care in our community – especially behavioral health, which this site will provide.

Central MA has for too long been without healthcare options. I have chosen not to use the UMASS system as I feel my care is better through MGH/Brigham. Patient's benefit when they have choices.

The project will also provide much needed jobs, including 300 union construction jobs and 200 permanent jobs, that will help our local economy emerge from the pandemic.

I support the Mass General Brigham project and ask the Department of Public Health to approve this application.

My PCP has been through MGH for the past 25 years, and all of my specialists are with MGH. I gave birth to both of my boys at MGH in Boston. The care I have received over the years has been excellent and I have not changed to local providers for that reason.

The project will also provide much needed jobs, including 300 union construction jobs and 200 permanent jobs, that will help our local economy emerge from the pandemic.

I support the Mass General Brigham project and ask the Department of Public Health to approve this application.

As a resident of Marlborough, MA and having Always Health Partner Health Insurance this area there is limited numbers of providers. I support Mass General Brigham's project to provide healthcare in Westborough which will expand my options to find doctors and services near me.

We need more access to care in our community, which this site will provide. If UMass Marlborough Hospital is just a great facility is shouldn't be afraid of competition from another health care provider.

The project will also provide much needed jobs, including 300 union construction jobs and 200 permanent jobs, that will help our local economy emerge from the pandemic.

I support the Mass General Brigham project and ask the Department of Public Health to approve this application.

As a local resident (Southborough) and Mass General Brigham employee (MGH Cancer Center), I believe our relationship with our patients is at the heart of the healthcare experience – for patients, their communities, care team members, and employees.

Understanding our patients' personal stories and building a lifelong relationship is crucial to making healthcare less complicated, less fragmented, and less costly.

Our response to COVID-19 is an example of how a coordinated approach can result in better access. I support this project, and I am looking forward to working with Westborough and the surrounding communities to ensure that Mass General Brigham that uses our people, research, and technology to meet the needs of our patients.

Working as a Nurse Practitioner in Cancer Medicine, we require a presence in the metro-west area, where many of our patients come live. It is challenging for many to access care in Boston for a myriad of reasons. The care that is given at MGB should be accessible to the people living west of Boston. I look forward to hearing about the progress of this mission and can speak at any of the upcoming hearings.

Thank you for the focus on this very important project with patients at the center.

As a local resident, I support Mass General Brigham's project to provide the same healthcare I receive today in Boston closer to my home. We need more access to care in our community – especially behavioral health, which this site will provide.

The project will also provide much needed jobs, including 300 union construction jobs and 200 permanent jobs, that will help our local economy emerge from the pandemic.

I support the Mass General Brigham project and ask the Department of Public Health to approve this application.

DPH-DL - DoN Program;

Hello,

My biggest concern about this DoN is how it was determined (what is the actual need/what services are lacking?) and how the Tenet Healthcare strike effects that. It is obvious that the real need is in Worcester (or further west than Worcester) where patients are less wealthy and rely on state provided insurance. Has MGB applied for a DoN there as well? Especially with Tenet healthcare not caring for as many patients as previously, Worcester could use all the help it could get.

I don't have access to the DoN application on why/what the actual need is in Westborough. However, I can assume, there is nothing in the application that mentions Westborough (and the surrounding area) having a higher medium income. Because this is really just a cash grab. If they want to fill a need, come to Worcester and help UMass and Tenet Healthcare out.

Thanks for listening,
Concerned UMass RN
