As a local resident, I support Mass General Brigham's project to provide the same healthcare I receive today in Boston closer to my home. We need more access to care in our community – especially behavioral health, which this site will provide.

The project will also provide much needed jobs, including 300 union construction jobs and 200 permanent jobs, that will help our local economy emerge from the pandemic.

I support the Mass General Brigham project and ask the Department of Public Health to approve this application.

As a local resident and Mass General Brigham employee, I believe our relationship with our patients is at the heart of the healthcare experience – for patients, their communities, care team members, and employees.

Understanding our patients' personal stories and building a lifelong relationship is crucial to making healthcare less complicated, less fragmented, and less costly.

Our response to COVID-19 is an example of how a coordinated approach can result in better access. I support this project, and I am looking forward to working with Woburn and the surrounding communities to ensure that Mass General Brigham that uses our people, research, and technology to meet the needs of our patients.

As a local resident, I support Mass General Brigham's project to provide the same healthcare I receive today in Boston closer to my home. We need more access to care in our community – especially behavioral health, which this site will provide.

The project will also provide much needed jobs, including 300 union construction jobs and 200 permanent jobs, that will help our local economy emerge from the pandemic.

I support the Mass General Brigham project and ask the Department of Public Health to approve this application.

Re: Please Support Mass General Brigham!

Dear Department of Health,

As a local resident, I support Mass General Brigham's project to provide the same healthcare I receive today in Boston closer to my home. We need more access to care in our community – especially behavioral health, which this site will provide.

The project will also provide much-needed jobs, including 300 union construction jobs and 200 permanent jobs, that will help our local economy emerge from the pandemic.

I support the Mass General Brigham project and ask the Department of Public Health to approve this application.

Sincerely,

koko zo

As a Woburn resident, I support Mass General Brigham's project to provide the same healthcare I receive today in Boston closer to my home. We need more access to care in our community – especially behavioral health, which this site will provide.

I would also recommend shuttle bus service at Anderson Woburn Commuter Rail Station to and from the new ambulatory center for staff and patients.

The project will also provide much needed jobs, including 300 union construction jobs and 200 permanent jobs, that will help our local economy emerge from the pandemic.

I support the Mass General Brigham project and ask the Department of Public Health to approve this application.

I received a marketing card in my mailbox and would love to have a new health-care site affiliated with Mass General Brigham locally in Woburn. I live in Winchester, had breast cancer twice and my treatment/recovery process was made much easier by having all of my high-quality care done locally!

Just an FYI from a local resident that is enthusiastic about your arrival in Woburn...

My best,
SueJ

I fully support MGB's project to bring their facility to Woburn.

I would like them to move the Timetable up -- to open in 2022, if possible.

I would also like them to include access at the Woburn site to Neuropathy, Vascular, Kidney, and Cardiac Care Specialists.

I support the Mass General Brigham project and ask the Department of Public Health to approve this application.

This is amazing news! As a local resident of the city of Woburn, I wholeheartedly support Mass General Brigham's project to provide the same healthcare I receive today in Boston closer to my home. We need more access to care in our community – especially behavioral health, which this site will provide.

The project will also provide much needed jobs, including 300 union construction jobs and 200 permanent jobs, that will help our local economy emerge from the pandemic.

I fully support the Mass General Brigham project and respectfully request that the Department of Public Health approves this application.

I support the Mass General Brigham project and ask the Department of Public Health to approve this application. I am extremely pleased with the healthcare I receive from Mass General Brigham and can't say enough about it. As I am aging it has been increasingly difficult for me to travel into Boston for my care. I look forward to the new facility to be built in Woburn.

Thank you so much!
