

Massachusetts Tax Credit Transparency Report

Calendar Year 2017

(Updated on April 16, 2021)

NOTE: The Massachusetts Tax Credit Transparency Report for Calendar Year 2017 has been updated as of April 16, 2021 to reflect 2017 tax credits that were issued after the March, 2020 publication of the 2017 report and other changes. While these credits were issued after 2017, they are considered 2017 credits because, for example, film credit applications received by December 31, 2017 are issued as 2017 credits notwithstanding the fact that these pending applications were processed in 2018 or later years.

I. Introduction

Massachusetts legislation enacted in 2010 requires agencies that administer refundable and transferable tax credit programs to submit an annual public report, by May 15 of each year, to the Department of Revenue with respect to such credits awarded or issued for the previous calendar year.¹ See St. 2010, c. 131, §§ 37, 38, 39 and 47, amending G.L. c. 62C by amending § 1, and adding new § 89; St. 2010, c. 240, § 118, further amending G.L. c. 62C, § 1. For more information regarding this legislation, see Technical Information Release (TIR) 10-11 and TIR 10-15.

The reporting requirements are effective for credits awarded or issued beginning January 1, 2011². Transfers of credits by the original recipients are not subject to the reporting requirements. Some credits may have pending applications that have not been processed by the time this annual report is issued. If any pending applications are eventually approved, the report to which the pending credit applications relate will be updated during the following reporting years. It is possible that some credits may be decertified or terminated voluntarily after an award has been reported. Readers may refer to the administering agencies' websites for further information on decertification or voluntary termination.

¹ The Massachusetts legislature amended the confidentiality statute creating a limited exception to the general rule of confidentiality by adding the tax credit transparency statute, G.L. c. 62C, § 89. Any taxpayer information apart from what is disclosed in this report remains confidential under the general confidentiality statute, G.L. c. 62C, § 21.

² The legislation establishing these reporting requirements provides that these requirements should not encompass credits that were either awarded or issued prior to 2011.

The following fourteen refundable or transferable tax credits are subject to the reporting requirements for the 2017 calendar year:

II. Awarded v. Issued Columns – Three Categories of Credits

The fourteen transferable and refundable tax credit programs have varying processes in awarding or issuing the credits. Generally, an award of a credit is a formal acknowledgement that a particular taxpayer will be entitled to claim a tax credit upon completing certain tasks, whereas issuance is the actual receipt of the credit. You will notice that some tax credit programs have an award process but no issuance process, and others have a process for issuing credits but no award process. Generally, the programs fall into three categories of credit processes:

1. Credits That Require an Award and an Issuance

Credit programs that have an annual cap (a limited amount of funds to be disbursed) generally require taxpayers to participate in an award process that involves the submission of an application to the administering agency. After the administering agency chooses who can receive a portion of the cap, notices are sent to those taxpayers informing them that they have been awarded a portion of the credit.

Some credits with an award process also require a formal issuance of the credits by the administering agency before taxpayers are entitled to claim or sell the credits.

The Low-Income Housing, Certified Housing Development, and Historic Rehabilitation tax credits have both an award process and an issuance process. After receiving an award and completing the Low-Income Housing, Certified Housing Development or Historic Rehabilitation project, the taxpayer must apply to the administering agency for a formal issuance of the credit. After the administering agency issues the credit to the taxpayer, the taxpayer can use the credit either by taking the credit on his/her tax return or transferring the credit. The issuance of the credit occurs when the corresponding project is completed, which can be a year or more after the credit is awarded. Both the award column and the issuance column are applicable to these credits.

2. Credits That Are Issued With No Award Process

The Film, Brownfields and Medical Device tax credits do not have an annual cap and therefore do not require an award process. The Community Investment tax credit has an annual cap, but does not require an award process. A taxpayer must apply to the administering agency³ before the taxpayer can use the credit. After processing the application, the administering agency issues a credit certificate to the taxpayer, allowing the taxpayer to take the credit on his/her tax return or to transfer the credit. The award column is therefore not applicable to these credits.

3. Credits That Require an Award With No Formal Issuance

The seven remaining credits have an annual cap and therefore have an award process that requires taxpayers to submit an application to its administering agency. After the administering agency sends an award notice to the taxpayer, the taxpayer can use the credit by taking the credit on his/her tax return or transferring the

credit. It is the date of the award notice that is entered in the Date Awarded column, which is unrelated to the time when the taxpayer may claim the credit on the taxpayer's return or transfer the credit to another taxpayer. The issuance column is not applicable to these credits.

III. Public Written Statements

In addition to the statutory references cited above, the following general descriptions and DOR public written statements provide detailed information describing the tax credits:

Film Tax Credit

Motion picture production companies may claim (1) a credit equal to 25% of the total qualifying aggregate payroll for employing persons within the commonwealth in connection with filming and production of a motion picture and (2) a credit equal to 25% of their Massachusetts production expenses. Each credit has its own qualification requirements and a taxpayer is allowed to qualify for and claim both credits. The production companies must incur a minimum of \$50,000 in qualified expenses during a consecutive twelve-month qualification period. The credits are either transferable or 90%-refundable to the motion picture production companies to the extent that the credits exceed the companies' Massachusetts tax liability. Transferees do not qualify for the 90%-refundability.

The Life Sciences Investment Tax Credit is equal to 10% of the cost of qualifying property acquired, constructed, reconstructed or erected during the taxable year and used exclusively in Massachusetts.

The Life Sciences User Fees Tax Credit is equal to 100% of the user fees paid to the U.S. Food and Drug Administration (U.S.F.D.A.) upon submission of an application to manufacture a human drug in Massachusetts, and may be claimed in the taxable year in which the application for licensure of an establishment to manufacture the drug is approved by the U.S.F.D.A. The EACC may designate the credit as refundable for any certified project, subject to a limitation that the EACC may not award more than \$5 million in refundable credits per year. The EACC is authorized to specify the timing of the refund. If a certified project is sold or otherwise disposed of, the credit allowed may be transferred to the purchaser of the certified project, provided that the EDIP contract is assigned to and assumed by the purchaser and approved in writing by the EACC. The credits authorized by the EACC are subject to an annual cap of \$30 million.
