

# Virtual Design Public Hearing Burlington – Improvements at I-95 (Route 128)/Route 3 Interchange

## What is happening?

The purpose of this Design Public Hearing is to provide the public with the opportunity to become fully acquainted with the proposed improvements of the interchange project. There will be an opportunity for public comment and questions following the presentation. All public comments will be considered to the extent practical.

## How will this affect you?

This Project will include safety improvements along the C-D road and reducing the congestion between Exits 50A under Route 3 through Exit 50B that goes over the Middlesex Turnpike. MassDOT invites you to attend the Design Public Hearing to learn more about the need for the Project, the work to be performed, the schedule, potential impacts to the public (including vehicular and pedestrian/bicyclists), and the next steps.

## When

April 2, 2024  
6:30 om EST

## Attend
